QUESTION on how to use ALMANAC and DIARY. I was born on the Year of the Rabbit and bought both the Almanac and the diary for the Year of the Rabbit 2011. When I compare there are days where the 2 are not consistent (eg. Feb 2 - good day on Diary but bad day on almanac. Feb 4 - bad day on diary, good day on Almanac). Which one do I follow ? Is this an error in printing? If so, I want my money back. Can somebody please clarify ? I put just 2 stars because of this inconsistency. Thanks.

This is a first-time purchase and thus have only used it for a few months. The calendar is visually pleasing and compact to sit comfortably on your desk without taking up much real estate. However, it left me a bit wanting for someone who is not familiar with feng shui. It would have been more

enjoyable to have further details on certain aspects like how to deal with those days that are considered "unfortunate" or even how to react to having a sign that worked against the Good/Bad days. I guess that's where her other books perhaps are supplemental? I did rather enjoy having the lunar calendar indicated (albeit it is Chinese) as well as when the full and new moon were since I have found myself resonating with the moon. I also liked the gloss of the pages and the harder stock material being used. It gave it a rather nice sheen and feel which would most certainly contribute to the longevity of the calendar. The additional information (i.e. Renovation Rules, Kitchen feng shui, descendants luck, etc.) were helpful to read through as well. Overall, I think it's a purchase worth getting if you have interest in feng shui and would like a visual piece to glance at.

Before you read all this, realize I did give this 5 stars. I do feel it's a great reference for the person familiar with Feng Shui. However, if you are unfamiliar with Feng Shui (especially with Traditional Compass), you may find it contains the good, the bad and the ugly. (Black Hat Feng Shui is a bit less complex and focuses more on cures and enhancements.)

INDIVIDUAL CALENDAR PAGES==>The days on the calendar that have all black symbols can be very daunting. On the days which all 5 black symbols or "inauspicious activities" (Business, Marriage, Move House, Travel and Renovation), it says you should "refrain from doing the activities indicated...". So, how do you deal with any of those aspects such as marriage and business? (Hide in a closet and hope nothing happens?) Just glancing, in April 2011, there are 12 days with black symbols (2 days that have all 5 symbols). If April has 30 days, then 40% of the month has something non-positive that you have to be aware of.==>The days/hours breakdown at the bottom of each calendar page is not only very hard to read, it can be extremely confusing and overwhelming. A newbie to this type of Feng Shui is going to be overwhelmed and focus so much on the negative aspects that he/she is going to miss the positive. If you feel you can keep it all in perspective, then it's a great tool for the year.

I buy this book every year. If you are into Feng Shui this is a useful tool!

Great to use throughout the year!

This helps me to get inline with the energies of the year

I have studied feng shui for years, esp. Lillian too teachings. This book has a typo...it states the southeast 1 star is afflicted illness star, says the same thing for center star.

Love, love, love the Feng Shui Almanac! Using it to maximize my positive energy as well as minimize the negative. This is hugely helpful and will be an annual purchase from now on :)
