Age Range: 7 - 11 years

Grade Level: 2 and up

## Customer Reviews

Kids love it. Many hours of fun searching for things. The best part is that it can be challenging as an adult to find a few of them. It's a great way to teach kids focus and object recognition. It's also a great book for long road trips (rather than electronics).

I bought this book for my 89 year old father. He loves looking for the hidden pictures and coloring them in when he finds them. These puzzles help keep his brain engaged, which is so important for the elderly.

I had surgery on my left foot and am not allowed to put pressure at all on it. I needed something to

take my mind away from this necessary healing process. This is fun...I look for the objects and then color the page at the end of my search. Pictures more interesting than some of the books solely for coloring to "rest your mind". If there is an object hard to find, don't turn to the end for the answer-start coloring the page and you will find it.

Good exercise for older children, but the black and white design makes it decidedly harder...did not keep the interest in my 4 yr old grandson. Instead, we found other books that were in color which were more like the puzzles Highlights puts in their monthly magazines.

My 7-yo twin grandsons, who can be very different in activities they enjoy, both love these books. They get totally engrossed and work together to find the hidden objects. So far I've given them books with picture clues, but next I'll challenge them with words-only books.

This is a great book for kids or adults. We purchased this book to take with us for our travel to Cancun. This hidden picture book brought back so many memories as a kid! It's a great way to keep the brain fresh and alive! This will give you endless hours of fun!

Perfect perfect perfect for my 4 and 5 year olds. This is a great quiet-time activity that they can do on their own. We keep Hidden Pictures books in our car, and each one has one for their bedrooms if they stay up a little late or wake up a little early. Also fun to do together. LOVE these books.

My kids love these books. I have bought about 8 of these in the last year. My 5yr old thru 11yr old love these and I love that it is something they can do in the car and at home that doesn't involve a screen.
