Synopsis

It's raining underneath the umbrella, there's a kite in the hedge, and a bird is nesting in a drummer's hair! More than 20 big pictures depict wacky situations, each loaded with hidden items. A key in the corner of each image indicates the shapes and numbers of concealed items, and solutions appear at the end.

Excellent value, and can keep young children entertained for a few minutes. Now these books are small--but that's kind of the point of these book, I think. They're portable, easy to throw in a briefcase or purse or back of the car, and handy to give to children at the doctor's office waiting room, or in an airport, or on a car trip, or at a restaurant waiting for food, or really, just anywhere where you want to have a short educational (or semi-educational) activity. And I gotta admit, I like that this is an "un-plugged" option. Not on a phone or tablet or screen--just a good old-fashioned book with simple activities, vivid illustrations, and things to *do*--that is, an active, tactile experience--even if the activities are quite simple (like peeling stickers). We don't leave home without a few of these. (Just be prepared, if you haven't ordered these before, for a small booklet, not a *book* book.)

I give these to grandkids and friends....keep the little ones happy on trips. Great with support from relatives because it gives lots of quiet time and interaction. Makes waiting in lines or waiting for the ferry pass faster.

My son loves these books! They are small and great for travel and keep him entertained! I think I have bought almost all of these books from Dover and they have all been amazing! This was a hidden picture book and we had a great time finding all the hidden items!

The books are for young children, which was my target audience, but they are so small it was difficult for them to use. The print was hard to read, difficult to use for activity. They lost interest quickly.

the pictures are nice but they take up two pages and I rather find ones that has twice to pictures and all on one page.

THIS BOOK IS A MINI, MINI BOOK, ONLY 5 1/2 X 4 INCHES. Doesn't say in the description how small it is. IT shall say, MINI book. My granddaughter is going to need magnified glasses. It is not worth to return.

I'm surprised at the thickness of the book.I expected a book a book with maybe 10 pages, but there are well over 20.The paper quality is decent as well.

Great little activity book for road trips! Be careful though if you get car sick, this will get you hooked!
