Boys Of Steel: The Creators Of Superman

Synopsis

Jerry Siegel and Joe Shuster, two high school misfits in Depression-era Cleveland, were more like Clark Kent--meek, mild, and myopic--than his secret identity, Superman. Both boys escaped into the worlds of science fiction and pulp magazine adventure tales. Jerry wrote his own original stories and Joe illustrated them. In 1934, the summer they graduated from high school, they created a superhero who was everything they were not. It was four more years before they convinced a publisher to take a chance on their Man of Steel in a new format--the comic book. The author includes a provocative afterword about the long struggle Jerry and Joe had with DC Comics when the boys realized they had made a mistake in selling all rights to Superman for a mere \$130.

Time was when a comic book wouldn't have had a snowball's chance in Hades of getting into a library's collection. And while some library systems have grown more open to the notion of comic book heroes leaping about their hallowed halls, there's still a great deal of resistance to the idea. Now Marc Tyler Nobleman and Ross MacDonald have found another way to get a fella like Superman into a library, and it's definitely a slick idea. resistance to the idea. Now Marc Tyler Nobleman and Ross MacDonald have found another way to get a fella like Superman into a library, and it's definitely a slick idea. Until now the story of Superman's creators Jerry Siegel and Joe Shuster has never been told in a format accessible to children. Now in *Boys of Steel: The Creators of Superman*, Nobleman and MacDonald pay homage to the fellas that brought to life "the greatest superhero of all time," in such a way that no library in the world could object to the book's style and panache. And though I've a quibble with it here and there, the next time you have a seven-year-old moaning about needing to read a biography make sure that this book is the ace up your sleeve. Dateline: Cleveland, Ohio - The 1930s. Jerry Siegel had many interests but what he really liked to do was escape from the world around him. By reading the tales of Tarzan, Buck Rogers, and other fantastical heroes, Jerry could find high adventure and this was an interest he shared with Joe Shuster.
