Customer Reviews

This book offers a range of skill levels that allowed my 5YO to build his confidence, while giving him challenges as he progressed. He loved the colorful pictures and was excited to discover the next puzzle. He likes to color with markers, and we found the paper used in the book doesn't "bleed" like many other books we've tried. I would highly recommend this book to any parent who is trying to teach their child numbers.

This book kept my kids -- 3 1/2 and 5 years old -- entertained for hours. This book includes all the numbers at the bottom of each page, so it is easy to use for kids still learning how to count. There are many dot-to-dot pictures on each page, so there are plenty of pictures to complete. I highly recommend it.
