This is not just a book of stickers. It is a fill in the blank sticker activity book. The stickers are on purpose for specific pages. Your older pre-K kids will love it.

Ordered this for my 18 mo y/o daughter, and the boys version for 3 y/o son. There are plenty of stickers, and lots of pages to stick them to. However, I was disappointed that the girls book is super girly (think princess), with sections on princesses, decorating, pets, dolls and very short birds & ocean sections), with not a lot of thought-provoking, imaginative, or active scenarios. The boys, however, was much better(space,dinosaurs,oceans,outdoor activities,vehicles,sports), super active and thought-provoking. Needless to say, my daughter prefers the boy book. On a good note, both books have lasted about a year, and the kids are still interested. We use them to stick other stickers into and make up our own scenarios.

I bought this book to have a whole bunch of stickers for potty training my daughter. They are really really tiny and she can't unstick them with her chubby little fingers. But still, for an older kid- probably would be fun, I wasn't going to do any activities in the book with her, I just wanted stickers.

Not what I expected. A lot of the stickers were small and boring. I was hoping the book would be more interactive - like having to stick the stickers on a page and make a scene of stickers. Unfortunately it was not. My daughter who is 6 liked the book, but only used it a short time and put it in the stack of books that are not used anymore.

There are 2 versions...Girls and Boys. I would encourage you to buy both versions regardless if you have girls or boys. They will enjoy both of them. There are different sized stickers and yes some are small but there are larger stickers and medium and every size in between. There are extra sticker sheets as well. I also have the National Geographic sticker book which are very similar to these and my kids have all of those. I pull out the sticker sheets as they are held by string (they will not fall apart) and then I cut the sections up. They have clearly marked sticker sections with the page numbers they are used for. I highlight the instructions and give them the sticker sections needed for each page. I found this to be easier for me and for my kids. They don't have to flip back and forth for stickers....my youngest daughter is almost four and she would have a difficult time with that. It also keeps them from using the wrong stickers. Some pages may not have sticker sections or only have a few stickers to place. I usually go to the extra stickers and give them some to use on those pages. So an astronaut from the boys book is covered in flowers from the girls book. They love that!!! Get both!!

I purchased this sticker book for a friend's daughter's 6th Birthday (along with some other things) And we did check it out a little bit before we wrapped it up.-Age range is 3-7 years old.-Paperback book.-1000 stickers.-It has nice bright colorful pages in it. (See images)-All the stickers for that activities are in the back.-It has 40 pages.This is an all around great sticker/activity book for younger girls. They'll love this book no matter what and there is 1000 reason why... STICKERS!!! What little girl doesn't like stickers?My daughters birthday is coming up soon and I'm considering getting one for her also, the girls could do the activities together.As someone who always likes reading reviews before making any online purchases, I just want to do my part by giving my personal experience and opinions on products in order to help you make a more informed purchase.I hope my review was somehow helpful to you.If so, please let me know by clicking below. -Thanks!!

My 7 year old daughter loves this book. It keeps her busy for quite some time. I may have to purchase another one for my 4 year old. She loves to watch her play with this book. She is so fascinated by all the stickers and activities. It is also a very girly book. We love it.

I thought this was a book of stickers. It is a sticker book. I didn't want an activity book. I wanted STICKERS. This an activity book with lots of little stickers in the back. If you want an activity book with stickers, this is perfect for you! If you only want stickers, don't buy this.
