Grade Level: 3 - 7

Customer Reviews

This book is a collection of Mad Libs taken from Price and Stern's other Mad Libs books like, "Off the Wall Mad Libs," "Dinosaur Mad Libs," and "Pirates Mad Libs." This collection includes a History of Mad Libs by Stern and six Biography Mad Libs filled out celebrities, starring Steve Carell and Anne Hathaway. This is a great addition to any word game collection.

My daughter got this as a Christmas gift and LOVES it! She flies through the standard sized Mad Libs so this will really keep her busy for a while. The book is very thick and must contain practically all that were ever made. I would highly recommend this to anyone who enjoys Mad Libs and the price can't be beat.

This book is huge! If you are planning on going on a road trip, Mad Libs are a necessity! This "Best of" book is great!

This made a great present for my sister for Christmas. Being Mad Libs fanatics when we were growing up this huge book had so many to choose from! It was the perfect and well worth the money!

Wow! I can't believe what a great deal this book is! SO many Mad Libs for the price, with such a huge variety. I've played these with my daughter, her friends, my husband, and even my elementary school students (grades 2-6). All of them LOVE it. P.S. For teachers: I still maintain that Mad Libs are the best way to teach -- or, at least, reinforce -- knowledge of parts of speech. So much more fun, in-context, and relevant-seeming than worksheets. One or two sessions with these, and my kids understand verbs, nouns, adjectives, etc. like they never had before.

I am happy I purchased this. I thought I had every mad lib known to mankind but there were a few in this book that were new to me. It will provide hours of entertainment!

I didn't realize this book was so big when I ordered it. I was pleasantly surprised to see so many options for our trips. I got our family hooked on Mad Libs when my husband and I surprised them one morning with a trip out west to see the desert and mountains. We did several Mad Libs on the air plane and while we waited for things like the rental car and such. Such a great alternative to all the electronic gadgets these days. There were several inside jokes that were formed from Mad Lib stories and at random times our children will spout off a line from them that makes us all stop and laugh. All of our children were involved, even if they hadn't originally planned to be, and offered words and suggestions. We each took turns being the narrator and I am not sure if that was more fun than offering the words. Our six year old got a good grasp on the types of words and quickly learned what nouns, adjectives, and verbs were. We are planning a 5,000 mile road trip this summer and I am already collecting more Mad Libs books to take with us. Can't wait for all the laughs!

This book kept my daughter and her friend busy on a 7-hour car ride... both ways! I didn't catch when I ordered that this book wasn't typical Mad Libs size -- it has so many more pages! Talk about value for the price!
