## Customer Reviews

This is an excellent set of books. I went ahead and got all of them. Basically this is a book for postcards of famous paintings. You cut them out and use them to help teach your younger children about art and artists and styles of art. You do this through a series of continually more challenging games. Well worth the money.

A fantastic tool when used as instructed. My 7,5,4 year old children have gleaned a tremendous amount of information and found appreciation for fine art. Highly recommend for home school or for families looking to enhance a traditional education.

I like these picture postcards, which we use according to the instructions in the manual which they are designed to accompany. They are a bit pricey, I think, but they are easy to use in an age

appropriate way and the kids like them.

These reproductions are very good, and the size of these pictures make them manageable for even young children to work with
