Age Range: 10 and up

Grade Level: 5 and up

Customer Reviews

This book is a must have for anyone who wants to learn to draw in the most fun way ever. I am 65, newly retired, and a doodler. Lately I have become more serious about learning to draw and wanted to do more than tangle. I took a class on art journaling and learned to draw big eyed girls quite well. I recently volunteered to draw cards for charity and realized I wanted to draw more of a variety of things. This book is perfect. I mastered most of the pictures on my first try which I consider somewhat of a miracle since a couple of years ago I had trouble with stick men. I was telling my daughter about this on the phone and knowing my past efforts, she was somewhat skeptical. She said OK draw a cat for me and email it. Within an hour I drew the red cat in the book which is whimsical and very expressive with fur standing on end. Well I emailed it to her and she thought I had taken a picture of the cat in the book. The instructions are that good that you can look like a artist in minutes. Great for kids from 8 to 108 and worth every penny.

This book is hardcover with thick, glossy pages, which make it quite hardy, a quality I look for in books because of the minions within my gates. Beautiful illustrations and step by step instructions. I will insert one caveat, that if you own a number of Usborne art books, you will find some overlap of projects. I like the books enough that this doesn't bother me.

Our 10yr old niece LOVED this book as a gift. The book is of great quality- hardcover (I think spiral bound on inside- couple weeks ago, so can't see it now) and lays flat when open. There is quite a variety of art included.

I bought this as a companion to another Usborne art book that I purchased for my school-age daughter. The book is filled with good ideas and clear instructions. I am enjoying it as much as my little one does. Usborne does a great job with these books.

Another excellent reference book by Usborne. I needed quick examples to show the children in my class and ideas to suggest subject matter and how to construct what they wanted to do. I would definitely recommend this book.

My 8yo loves this books much, he wasn't satisfied just taking it from the library. He had to have it. He finds new materials and techniques to try and never gets tired of it. More comprehensive than other art books.

Bought this for my 10 year old. She has already found so much value in this book. Great illustrations with a good variety of drawing and painting ideas.

This is a fun book to do tons of simple and fun exercises to help you learn to sketch. Good for beginners.
