## Customer Reviews

This is a GREAT sticker book with lots of variety and thick, colorful stickers. I got them to use for a couple of ocean themed school activities and crafts and they worked perfectly! I had a group of six kids and this was more than enough stickers for all of them. They are nice and thick too - no tearing when trying to peel them off. All in all I recommend these for anyone who needs good quality, inexpensive stickers. I will be checking out the other books in this series!

A very cost effective way to get a nice lot of stickers! Colorful, glossy, nice quality. I bought a few different books from this "Eyelike" series. My kids can use them for arts and crafts/school projects. They are nice that they are in booklet size so they can just slide onto the bookshelf with the rest of the books rather than needing a special basket/box just for stickers. It says reusable but I can't attest to that aspect, we don't try to reuse them.

This line of sticker books is a great bargain. I got the entire collection for my 18-month old grandson. (Seasons, Baby Animals, Ocean, Space, Farm Animals) What a hit! He has covered his windows with stickers and they are easy for mom to remove. Themed books are nice topics for learning and talking. Pictures are really interesting to toddlers. Used for distractions at restaurants, in car seat and for rainy days. Grandma wants more selections!

I was so excited to get these reusable stickers for my 2yr son who loves sea creatures I thought we could use theme for potty training rewards and quiet time play. But stickers tear when you try to remove them from the paper and do not re stick on anything. Huge disappointment

These are AWESOME. A full book of great stickers, very life like and for the price you can not find these sticker books for less. I am working on owning all of them. I use them as a learning technique for my son and he loves it!!!!

They are good stickers but they are not as easy to "reuse" as they should be. Like any sticker, they will tear if you aren't careful peeling it off the paper, but these seemed a little harder than most.

Lovely stickers and LOTS of them. Anyone with a toddler in the house knows that quantity at this age is just as important as quality. We use them to tell stories, learn about ocean life and new creatures and to make thematic drawing projects. My 2.5 year old likes to peel, stick and then peel again.

These stickers really are life-like and there are all different organisms and sizes. I got these for my nieces and nephews and regret not getting some for myself. If you've got a bare wall, they'd be great. I'm not sure how re-usable they are yet, but I'll be purchasing the farm set for the kids next. And, 400 realistic looking stickers for under \$7.00? You really can't go wrong.
