My 5 yr old daughter and 6 yr old son (both readers for a while now) LOVE reading these books...my son literally sits for hours and reads them cover to cover over and over again...he loves the story lines, and the illustrations are magical! Equally thrilling for both of them are the various fun activities, crafts, recipes, etc., scattered throughout the books...I love that they use lots of different brightly colored fonts throughout the pages, accenting certain words, instead of just the usual Times Roman print or the like...highly recommend...like that they use top quality binding and pages...

If you are thinking about buying this for the Kindle. Don't. It seems like the publisher or whoever

approved the e-book version, didn't check to see how it would look on the Kindle. The font and pictures are at about 50-60% size, so you will need to pinch zoom (tablet/phone) each page or deal with the miniature size of the book on your Kindle and PC. The description says; This title has complex layouts and has been optimized for reading on devices with larger screens such as Kindle DX, Kindle for PC/Mac, and Kindle for iPad. It is NOT. I sent an email to about the formatting issue and they issued me a refund. 5 stars for to for their customer service!!!

My son is 7 and enjoys reading these books. he reads about one full Geronimo Stilton a week. the Kingdom of Fantasy series is his favorite and the best ones in the series in my opinion too. They are longer than regular Geronimo Stilton adventures so they take longer to read but it's worth it. When I was his age I liked Greek mythology...I tried with some of those books but no success...Geronimo Stilton is what I needed to motivate my son to read more!

My 5 year old loves this series and has for the past year and a half. He has had my husband or myself read and re-read this series over and over. He really gets into the characters and loves everything about the books from the maps and great illustrations to the descriptions and introductions of the characters to the way the writing is not just typical one font writing but stylized, colored, and emotive of what the words are saying. My son actually seems to consider Geronimo an imaginary friend and we've made cheesy-full cake and cheese niblets and shared it with Geronimo! This particular series of Geronimo Stilton, "The Kingdom of Fantasy" 1- 5 is extremely creative and full of classic fantasy lore: dragons, witches, gnomes, trolls, giants, elves, fairies, spells, ancient cultures, sprites, sea monsters, love, friends, classic life lessons and Geronimo as the reluctant hero, etc. etc. It's great! When he is a bit older I think these books will be good to assign him to read on his own. I think it's a good way to learn context clues, considering the text puts emotion/feeling into the words via differing fonts and colors.

My granddaughter was so excited when I bought the entire set of Geronimo Stilton and the Kingdom of Fantasy books. It is wonderful to see a child actually read a real book. So she doesn't have to worry about batteries or needing to charge something. While I will admit that I know nothing about the content of these books, if my 11 year old granddaughter is excited to read SIX books, then the story line must be highly entertaining.

My family and I have now gotten all 4 of the Kingdom of Fantasy versions of the Geronimo Stilton

books and each one is good in my opinion. It is hard to say which ones I liked the best because I liked them all. I like them because they are actually fairly interesting and fun to read for me, and the kids like them because they have a lot of nice pictures and are interesting for them as well. They especially like the maps that are printed for each area that our hero travels through. My 2nd grader can also read this book on her own, and I have her read parts of it sometimes during the bedtime routine. It is seldom that I have found books to read to the kids that I actually do not mind reading myself. I have now read three of the books in the Kingdom of Fantasy series so far and have enjoyed all of them.

This book series is so great for kids that just don't enjoy reading. A switch came on for my daughter she has read so many of these books, and now she is reading the land of stories with over 400 pages and no pictures. Get them to start with kingdom of fantasy series first.

Even I would like to read this title! Adventure, mystery, swords-a young boys are captivated by these stories-not to mention Stiltons writing style The varying colors and sizes of text in the books seizes the imagination The factoids are priceless
