I've been on the look out for a coloring book like this one! This coloring book has great illustrations of underwater critters. Drawings are great. Each page contains a simple drawing that is large, adorable and easy to color, making for a great early or first coloring book. I have had a very hard time finding coloring books that meet my criteria: I maintain a low media household, Waldorf inspired, montessori and RIE informed play environment and routine, and am always looking out for toys, coloring books, etc. that aren't part of some mass media commercial marketing scheme like Disney, Pixar, etc.We go for simple, open-ended toys mostly, and I am exceedingly happy with this line of coloring books that feature animals drawn cartoonishly enough to engage very little kids and provide easy coloring spaces while at the same time representing the animals realistically enough that they still clearly resemble their real-life counterparts.Best surprise of all is that there are dozens

more of these from which to choose by the same artist:I'm having a heck of a time trying to decide which ones to buy next!!

Cute! Always happy to find a coloring book that isn't hawking some character/product line. Paper is quality and doesn't bleed through like some thinner, more newsprint like coloring pages do. Nice for me because my daughter likes to paint watercolors in her coloring books, and thinner paper just doesn't stand up it.

This is a wonderful coloring book for young children who are just beginning to enter the creative phase. Most pages have one creature with every few pages having a full page of creatures. I like the simplicity because it allows my child to be creative and use their imagination instead of just coloring within the lines. I love the quality of the sea creature because they are engaging to young children in a cartoonish aspect but are still easily associated with their real life counterpart. I can't wait to buy more for my daughter! Plus the seller is great to work with quick delivery and prompt responses which is always a bonus!

Good coloring book for the young ones as the images are large and not overly detailed. I would recommend this for a younger child who loves fish & the ocean. Plenty of variety in the illustrations - fish, turtles, starfish, octopus.. etc. Large 8.5 x 11 inch size. Goes great with a big box of crayons.

Nice coloring book for kids less than 5 or 6 years old. I bought this coloring book as well as Kids' Cute & Cuddly Coloring Book (Volume 1) as part of my granddaughter's Easter basket and this book is better. Both coloring books offer large, easy to color pictures but the pictures in this book are much more interesting. The other book shows an item (cupcake, star, etc) per page but this one has scenes (fish with seaweed or shells,etc). I also bought these crayons: Crayola Ultimate Crayon Case, 152-Crayons at the same time.

These are beautiful pages. The booklet is filled with gorgeous and sweet pics of sea creatures. Wish it offered more pages for the price, but overall quality is likely why...it's very good quality paper and cover. Will definitely buy more of this kind and brand. Exactly what we were looking for in our home to keep our 4yr old busy. This is also great for kids who do not like busy coloring pages with too many visuals who may feel overwhelmed if there are more objects on the page that distract them, pictures are very clean with large prints.

We're getting married at the Georgia Aquarium and I wanted a sea themed coloring book for the children so they don't get bored (and don't bother me). This book is cute and has simple, easy to color pictures and I think the little kids will like it!

I bought this lovely coloring book for my two years old and she loves it. Have all kind of sea/ocean animals in the books. They can learn what kind they are as well and they can enjoy coloring :) . I would love to buy more or sample them :)
