I know my kids loved these tactile books about animals when they were kids, so when it came time to buy my new niece books, these are the ones I picked. Very sturdy & great touch & feel pages for little fingers. Very happy with this purchase.

I have several DK Publishing Touch-and-Feel books and each one is a disappointment. Half the pages don't even have a touch-and-feel element, and the ones that do are lame (for lack of a better word). They put absolutely NO effort into these books anymore.

I have to be honest I wasn't amazed with the book when it arrived ,, It have several animals pictures with touch and feel parts but the text was not directly related to the pictures and the animals organized in such a strange order with some strange groups such as the duck and the cat IBUT my

15 yrs old baby LOVED it .. he would stare at those pictures for ever! it's his fav. book .. he will take it and give it to me in order to read it every time he see it which was difficult because I have to make things from my head instead of what's written on the book ..Apart from all that the quality of the book is pretty good ..

My 9 month old loves this book. He will sit and "read" it. He loves the pictures and touching the animals. He even laughs at a few of the pages.

I love these touch and feel books! This our third one we have gotten. Love being able to break up reading time with a little sensory time.

It was ok. Not enough touch and feel but my 2 year old like it

18 month old loves these series of books. Had this one in her Easter basket. She doesn't care about the words in this particular book she just likes naming the animals and feeling the textures.

The textured sections of the pages fascinate our 11 month old boy. He's loved it since he was 8 months old. The pages are also easy for him to practice turning. Great book.
