Fall (Four Seasons Series)

Synopsis

Large and beautiful color illustrations on every page of this book—one in a brand-new four-volume series—will appeal especially to early grades boys and girls. Kids will also love having the simply written descriptive text read to them as they gaze at the charming pictures—and as they get just a little older, theyâ™ll be able to read the text by themselves! Both words and pictures evoke the moods and activities of autumn, and the illustrations show children at seasonal play

Age Range: 3 - 6 years

Grade Level: Preschool - 1

Customer Reviews

Overall this book is intended to be interactive. The pages expect the child to answer questions, name objects, and think about what might help a situation. Therefore this is not a story book but an educational book. Parents should be engaging with the child as the book is read together. The book also includes a number of craft projects including making fruit compote, a paper bird/airplane. and a bat. There is also a guide for parents on how to engage with their child on the topics covered in the book: day length changing, harvesting foods, animals preparing for winter, migration, fall festivals/songs, and the characteristics of summer.Overall, I liked the summer book better. I felt the craft projects in the this book did not link as well with the material, the focus on festivals and songs

seemed almost a cop-out compared to the amount of material in the previous book... I just felt it could have been a better. In my opinion, the best way to use this book is to read one section of the book at a time... then build on the topic presented with other resources like adding in a fictional story, a science book, poetry, crafts/projects, going on exploratory walks, outings, etc. In this way, you can use the book as a great springboard at the start of fall in order to jump into the season and set up fun things to do together as a family over weekends - such a practice will benefit your child's education and character as well as solidify family ties. You can develop a number of fun fall-themed lesson plans to keep your child learning and practicing skills at home (and perhaps provide more interesting topics than what is being covered at school).
