## Customer Reviews

I purchased this book for my daughter when she was only one, and we both quickly learned to love it. Then, when my son came along, this book became one of his favorites as well! The wonderful rhymes and adorable pictures make this book a true blessing for the parent who has to read it over, and over, and over... :-)| was especially impressed by the small bit of musical score that is part of the rhyme "Dinosaurs singing a dinosaur song." Whenever we get to that page, my children love to sing the little tune that is written there! Sandra Boynton is a wonderful children's writer, and this is a great example of her work. I highly recommend this book!

I bought this book to add some variety to my three year old son's bedtime book collection. At this

point, I am looking for books that aren't too long or too complicated before bedtime and will hold and engage my son's interest, hopefully leading to questions for him so he gets used to exploring the world around him. This book fit that bill. It's a handful of pages long with short and simple rhymes so that Mom or Dad doesn't have to spend a half hour reading before bed. The pages have soft pastel colors and cute drawings of all kinds of dinosaurs. The rhymes are short and sweet--most pages focus on opposites: "Dinosaurs weak. Dinosaurs strong." The only reason I deducted a star is because one of those differences set up a really unfair comparison of looks, which is the opposite of how I'm striving to teach my son to be kind. "Dinosaurs cute, and dinosaurs not" with a picture of some "ugly" warty dinosaurs. Thankfully, my 3 year old said immediately, "Those dinosaurs are cute. I love those dinosaurs." I'm not sensitive about a lot of stuff, but I don't want my son to ever feel bad if he grows up to have looks contrary to the "norm" or to make others feel bad, so avoid or modify that page if that's something you're teaching your kids.

I have read to my 24-month-old almost every night of his life, and now that he is old enough to understand, "Go get some books for Mommy to read," he almost always picks this one with his choices. He calls it "Dinos" and really follows along with the reading. The colors are bright, the opposites and rhymes are age-appropriate, and the book is just great for young readers and pre-readers. We got this as a gift from a child who we gave "Barnyard Dance", another great Boynton book, and we plan on buying the rest of the Boynton board books to add to our collection.

My 19 month old daughter loves Boynton books, this one in particular. I purchased Barnyard Dance, Oh My Oh My Oh Dinosaurs, and One, Two, Three for her birthday and I have been very pleased with the quality and adorability of these books. My daughter has begun to memorize certain portions of the book, such as hot and cold, and applies it to everyday things. This is a wonderful book to teach opposites and the rhymes are fun and easy to memorize. I would certainly recommend this and the other Boynton books.

This is our most recent Boynton Board Book and we are pleased once again. The dinosaurs are adorable with surprisingly expressive eyes. The rhymes are clever too. We read to our 5 month old each night before bed and this is yet another Boynton board book that is ideal. Her books are just the right length for short attention spans and the bright illustrations captivate our little one. Thank goodness for Sandra Boynton!!

We have a large collection of Boynton books and love nearly all of them. I got this one for my nearly 2 year old for Christmas and now it's one of his favorites (and mine too). It is all around excellent. I can actually say I enjoy reading it, it makes me happy. I have books that he reaches for that I don't enjoy reading as much (The Belly Button book being one of them), but this one I gladly read over and over. The book is a cute opposites book. The book rhymes perfectly and has very good flow. It like has it's own tempo that makes it rhythmic to read. The pictures are adorable. My son is very into dinosaurs right now and LOVES the fun dino pictures. This book is absolutely perfect!

Dinosaurs with different emotions, behaviors, sizes, colors, even times. Happy/sad, good/bad, early/late, weak/strong, cold/hot - you get the picture. We also like 1 2 3! and Barnyard Dance in this grouping. Almost all of the Boynton books are a hit at our house.

Love the Sandra Boynton books! This is one of our son's favorites. It is a book more about opposites around a dinosaur theme. The drawings are cute and colorful and I like how they depict the differences in each dinosaur.
