So cute! We love this sweet little bug book! My son and I spent weeks catching bugs and talking about them and all their different features! We really like this I think anyone who purchases it will like it too! Oh and the pictures in the book are amazing!

Very Sweet little book that my little 4 year old buddy has really enjoyed. My only criticism would be that she has included spiders which are not bugs but arachnids.

Very cute book for young kids, with catchy rhyme that will attract their attention as well as actual photos of bugs to help them learn about nature.

Great color photos of bugs - not just illustrations. Fun guidebook to use on bug hunting adventures with grandkids.

My preschool class enjoyed the book, showed a lot of colorful bugs through out the book itself!

Hope it would have more but will its something to start with with the young kids
