Grade Level: Preschool - 1

Customer Reviews

My daughter has has trouble reading in first grade and I've struggled to find age appropriate books and ones that she enjoys. This book was fun to read and simple. It's leveled for pre k to Kind. So I started her know bc she's behind but just really enjoyed this!

A vet helps pets, and when the vet needs help, Barbie steps in. This cute little book is a very good book for Step 1 readers. The text is large and easy to read, while the words are simple and just right for a beginner. The illustration work is quite good ["brightly colored, with a surprising amount of detail in it. Yeah, this is a good book, one that I like reading to and with my little reader. We both enjoy it a lot \["we both love animals!\]\(#\)](#)

We didn't give this a full 5 star rating because while we thought it represented the "Barbie" icon just

fine and the graphics were quite nice, we felt it was a bit too short. A little bit of interaction built in would have been extra cool too, but then it wasn't too expensive either.

I purchased many e-books for my iPad and iPhone for my grandkids. My granddaughter is in 2nd grade and loves reading books on my iPad. The graphics are great and if she needs to she can make the font larger.

My little girl loves Barbie and this builds her confidence when she can read it on her own. I will surely buy more books in this series.

Barbie can do anything! She went to the vet with her kitty and ended up helping the vet. So Barbie turns into a Pet Vet and did a great job! Wonderful short story about Barbie and her friends caring about others' pets. My 3 yr old little girl loved it!

This is a cute story about Barbie helping out a vet and learning what she does. It's a very early reader book, so obviously the story content isn't deep. Mostly Barbie looks at all the animals in the vet's office and helps track them down. Then she visits a horse farm and helps the vet tend to the injured horse. My daughter just started kindergarten and is able to read this book, so I'd say it's appropriate for ages 4-6 reading level. Even younger children would enjoy having it read to them. There are a lot of pictures with bright colors and cute little animals. If you have a kiddo who is a Barbie fan, this line of early readers is a very early, basic introduction to many different career fields. This is one of our favorites because of all the animals.

Barbie I can be a pet vet, is a very adorable book for kids 7 years or younger. I rate it a 4 star rating. It's all about Barbie taking her dog to the vet and ends up helping the vet with the animals. Once again it's a adorable book for children.
