Mercy Watson Thinks Like a Pig is the fifth book in the Mercy Watson series. I confess Chris Van Dusen's illustrations captured my attention first, but the combination of the story and the illustrations was perfect. The book itself is exactly what early chapter books should be: a combination of the familiar picture book and the soon-to-be familiar chapter book. The illustrations and font size are consistent with a picture book, but the page size and length are consistent with chapter books. Most importantly, the story and illustrations are delightful. Mercy Watson is adorably precocious and

utterly porcine. While Mercy is enjoying some fresh lemonade with her owners/parents, she smells fresh pansies and promptly wanders next door to eat them because they taste as good as they smell. Naturally, the neighbors are not pleased and call animal control. Hijinks ensue. DiCamillo mostly tells the story through simple words and phrases, but she also slips in more complex words, such as porcine, subtly. She deftly uses them in context that makes them clear to young readers. While these books are the perfect transition book from picture books to chapter books, they would also make excellent read aloud books for younger children.

Both girls and boys will enjoy Mercy Watson. Huge hit-great series. Just enough pages to make it interesting and not take all night to read. I believe these are read in the car, at bedtime and certainly enjoyed.

I bought these books (this is the fourth one we've read) because the pictures were nice and they had chapters. That's it. I have been so, so impressed with them. The characters are funny and run throughout the series, the pig is mischievous, the pictures really are beautiful. Each night, we read two chapters (the chapters are a bit short) and then my daughter spends several minutes looking over the pictures, trying to recreate the story or figure out what happens next. I just bought the other two books in the series, and we will be sad when we are done with them.

What a fun read! Mercy is a spoiled little pig that loves nothing more than to eat toast with a great deal of butter on it! It is very entertaining and my girls laugh almost the entire time! My kids are 6 and 3 and it keeps their attention the entire time! We now own all of the Mercy Watson books and can't wait for more!

My children all love Mercy Watson, the stories are fun and entertaining and the pictures are beautiful. It was so funny when my seven year old called her brother a Porcine Wonder and he had to read the book to know what his little sister was talking about. Well worth the cost of the book.

We have all of the Mercy Watson books, and my daughters and I absolutely adore each book. They are so cute and funny, but they also allow for great inferencing and building vocabulary opportunities with your children. We just love the characters in these books. Some are in each one, others are introduced in one and then return later in others. We love to see all of them come together in one common love... toast with a great deal of butter! My 6 and 5 year old girls love these

books, and I enjoy them just as much as they do.

Mercy Watson, a "porcine wonder" finds herself, in this story, hunted by animal control officer, Francine Poulet. Mercy's owners, Mr. and Mrs. Watson spoil Mercy and when she gets into mischief in this story by eating all the pansy's that Eugenia and Baby Lincoln, the next door neighbors have just planted, don't apologize but just say "She must be hungry" and offer Mercy her favorite food, toast with lots of butter. Needless to say, Eugenia Lincoln is rather cross and calls animal control. Hearing this, her sister Baby, goes around to the Watsons to let them know about the "unmentionable horror" that is about to happen! In the meantime, two neighborhood children have come to invite Mercy to a tea party which Mercy willingly goes to thinking there will be more delicious food for her. Read the book to see what happens. Will Francine Poulet find Mercy? For some reason our kids LOVE this book and want it read repeatedly. While I do see the humor in it, its simplicity and constant repeating of the same people's names gets a tad monotonous and makes the story longer than it needs to be. The illustrations are fabulous and definitely help with the appeal of this book.

My son got this book as a present and I was worried he would not like it and find it too "girly". He is 8! He not only loved it, he asked that I get the whole collection, so I did. He laughs out loud when he reads it.
