I teach Chinese at a junior high and needed some new resources to use; I ordered this textbook upon recommendation from another teacher. It is written in simplified Chinese characters with pinyin included. The pages are packed with different skill sets and sentence practices. There are engaging pictures as well. It also comes with an audio CD for listening practice. The textbook is divided into five sections and 21 chapters. The topics range from basic introduction skills, days of the week, family and work, to food and countries. What I like most about the textbook is that it includes the pinyin above the characters and appeals to teens. The price was also fairly reasonable. I would recommend it for beginning Chinese speakers in junior high and high school. It may be a little hard for an elementary student to navigate. This textbook has been a great addition to the various resources I use to teach.

I've been looking for a book like this one. And honestly there is not none like this. I mean they drive you from the beginning and start teaching you all the Chinese's stuff. I'm a self student and i am

learning mandarin faster than i can imagine. I totally recommended to buy not just the book, also the workbook. I am dealing to buy the whole series of it (just to avoid if the sold out, which i don't doubt it if happen).You wont regret, just buy it.

I am really frustrated with the CD audio that came with this book.It's very unorganized and confusing. This is the second time i bought a Mandarin book and the audio is not detailed and follow along as well with the text. I enjoy the characters and color throughout the pages; it makes studying the book enjoying. However, the audio is a very important part of learning a new language and this book's audio totally threw me off.

I really wanted a book for our family to begin learning Chinese. This one is not easy to follow for a beginner.

I bought it for my daughter and now she's going on in Chinese all over the house. It is a great introduction to the language in my view.

I brought this book for my 11 year old, as she is taking Chinese this year! It was a great buy and the CD it comes with is very helpful!!!

I have been looking for a Chinese textbook for little children. The book I bought from .com is just the one I am look for. It gos with cartoon pictures and dialogue and attract childcare's attention.

excellent classroom companion
