Customer Reviews

DK's series of Touch & Feel books quality are slightly hit & miss, but this one is a home run. Starting with construction, its a solid little book. The pages won't peel, the hairy patches won't get tugged out (I tried myself in the store), & the edges are blunted & the covers padded so they won't hurt baby. Size-wise, its just right for little hands to turn the pages. One complaint is the size of the textured patches - they are rather small. This is common for all touch & feel books I've seen, & its something I just don't understand. Babies & kids would rather be able to touch something larger than an inchworm! They are also repetitive, but this is a book about furry creatures - but something besides fur & holes would be nice. Overall, the pictures really seem to pop off the page, are simple & eye-catching to baby, & cute for mom or dad. The text is simple & presents the concept of opposites, & invites discussion with baby about what's going on in the picture, (ex. "The kitten is laying down, because he's all tired out!") The textures make sense, for the most part (long hair patch versus short hair patch, shiny toy mouse, polka-dotted dalmatian) They are small, so young

babies will likely need help 'petting' the animals, & older kids might be disappointed with only being able to drag a finger or two over them. In depth - the cover features a puppy & kitten with soft, velvet-like ears & sparkle-y title text & spine. It's a nice touch, but I wonder how long it'll be before the velvet is grubby. The first page is my five-month-old son's favorite so far. It has a dog with a long hairy patch ('long-haired puppy' & 'ready to play!' says the text) on a red background, & a black kitten with a short fur patch on a white background ('tired out!' & 'short-haired kitten').
