Customer Reviews

We love this set of books. We've had these for a few months and they are still holding up with a toddler. My 2 yr old likes to look at the pictures and drag them around the house. Also, easy for my toddler to turn the pages himself. My 6 year old also uses them to practice reading, great for beginner readers. They are small but great for the little ones. I like that they come in carrying case with handle. They are easy to bring along on long car rides.

These are cute, sturdy books. My little guy loves holding them but the pages were really stuck together. The stories are a little condensed but perfect for my little guy to practice. The graphics are cute.

My 8 month old nephew loves his early board books and "reads" them for hours. He is not averse to taking a bite of them when hungry. I would recommend this set to parents with 1-2 year old children.

The books are small, although the size bothers me my child loves them. she went straight for the books....didn't even want to wait for me to open her other order of books. It's all about my girl...if she loves them then I do too.

Great little books and some of my cousins favorites that I read to him growing up, so I bought the set for my first son. Unfortunately, one of the books in the box is in Spanish and it was the one I was most looking forward to!.... not worth the hassle returning it, but just something worth noting. I'll keep it and maybe teach the lil fella a word or two from it.

Purchased these for a friend's little girl who loves doggies. She adores these books! Perfect for little hands and families on the go.

Exactly what I've been looking for! Great for baby to hold or interact with while you read to them. Will buy more of the sets.

My 4 year old loves these books, and despite being the abridged versions, keep her entertained.
