The Silver Spoon For Children: Favorite Italian Recipes

Synopsis

"Want your child to cook like an Italian? The Silver Spoon for Children is the best way to start. What if your child could make their own Pizza Margherita? What about Tomato Bruschetta, Tuscan Minestrone Soup, Rigatoni with Meatballs, Chicken Stuffed with Marscapone, Focaccia, or Fruits of the Forest Ice Cream? All of these recipes, and more, have been adapted just for children from Italy's best-selling culinary bible. Broken into Lunches and Snacks, Pasta and Pizza, Main Courses and Desserts and Baking, The Silver Spoon for Children presents over 40 quick, wholesome and authentic Italian recipes that children aged 8 and above will love to cook and eat. The recipes have been thoroughly tested by an expert in children's nutrition. The book also offers tips on cooking safely, which kitchen equipment to use, and how to make things as tasty as possible. Every step is described in detail accompanied by charming hand-drawn illustrations and full-color photographs of the finished dish that make the recipes fun and easy to follow."

My kids just got this book for xmas. They are 13 and 10. Last night they made rigatoni with meatballs and the fruit ice cream. They were able to read the recipes easily and understand the directions. Basically they made both things by themselves and they turned out great! Dinner was a success!! They seemed to really like the cookbook and want to make something else out of it.

I have quite a few cookbooks for kids including several of the Paula Dean and Williams-Sonoma books. I also own the original "Silver Spoon" cookbook for adults. Saw this kids version on and decided to order it for my 10 year old who loves trying new recipes. I was very impressed with the size and quality of the book. Nice thick cover, larger size, beautiful colors. The directions are well-written and understandable for children and include illustrated drawings as well as a photo of the finished dish. A great kids companion to the "grown-up" version. My daughter loves it. Such a great book for the price and would make a wonderful gift for a child. I will be purchasing another soon for my niece!

I got this for my 9 year old grandson for Christmas. He has been taking cooking lessons in a local restaurant by the kind Chef who owns the restaurant. He just loves the classes and has learned how to use a knife and has tried some of the restaurant's favorite recipes. This book has some very good instructions for the safe use of cooking tools and is not babyish at all. So if you know a child who is serious about cooking this is a great beginning cookbook. The recipe for the minestrone soup looks delicious and I plan to try it myself. He has always helped in the kitchen and now he can make some of his own choices.

This is a fantastic cookbook for those of us that have children who are interested in cooking; it definitely does not write 'down' to them. The recipes are ones children would be interested in eating and proud to make. The book is large and shows illustrations for each step and even better, a photograph of the finished recipe so that they will know what the finished creation should look like. The book is large 11"x 10" so it is easy to read and lays well on a counter or a cookbook stand. It contains lunches and snacks, pasta and pizza, main course and desserts and baking. There are sections showing cooking techniques and safety tips. There is no index, but that does not really seem to be a problem. The recipes are good, what child wouldn't be proud to make risotto, or even know how to make fresh pasta. The age level is listed at 9-10 and depending on expertise would even be a book for those that are older and just learning how to cook. Just really a grand idea and resulting cookbook for young future chefs.

After hours and hours of searching for the perfect childrens cookbook, we found The Silver Spoon. If you are looking for something for your serious child chef this is both simple enough that a 7 year old can cook it but interesting enough that mom and dad want to help too. I couldn't bear the thought of making food animals and smiley faces for every meal. This is real cooking, teaching young children

the basics as well as refining their pallet. Our daughter enjoys choosing a recipe, making a list of ingredients, shopping for them, and then putting it all together. We are very glad we found this cookbook!

This book is the perfect cook book for a young aspiring chef. My son just learned to read and he hasn't put it down yet. We can't wait to start making all of the recipes together. Great item.

My Italian-American husband Guido used the Silver Spoon for Children to make Risotto for dinner with his grandchildren. Using the maps, the drawings, and the recipe, the cooking event became a history lesson and developed into many stories about the family, vacations, and future trips planned. This is a very special book - I wish all cook books could be as revealing and loving of the country of origin as this. And the special note, Guido's son gave us the Silver Spoon for Christmas when it first became available in the US. I prefer the child's edition - it is perfect.

Initially, I thought this book was a selection of Silver Spoon recipes that small children will like, but when I received it, I realized that it's actually designed and written for older children to cook for themselves....still a great idea, just not what I thought I was getting. I kept it and like the recipes and will give it to my children when they are older. Good luck and good cooking!!!
