# 10-Minute Puppets

## Synopsis

It's the Swiss Army knife of activity books: how to make puppets anywhere, in ten minutes or less, using everyday materials. And who better to create it than Noel MacNeal, a longtime puppeteer who learned his art from Jim Henson and Frank Oz. MacNeal shows parents and kids how to make 30 puppets using socks, paper bags, napkins, and the most important tools of all—your two hands. *10-Minute Puppets* is filled with imaginative ideas, energy, and the pure, childlike pleasure of turning objects into characters. There are finger puppets: *Wiggly Worm in an Apple*, *Teeny Ballerina*, *Little Pachyderm Sock* and glove puppets: *Crabby Crab* and *Herb the Plant Cutouts*, shadow puppets, and puppets perfect for the spur-of-the-moment, like *Envelope Bird*—make it using a deposit envelope while waiting in line at the bank. With full-color illustrations throughout, the book has step-by-step instructions for each puppet; pages of puppet parts and bodies to cut out and use; how to create simple puppet theaters; plus, a final chapter with ideas for putting on a show, drawing on nursery rhymes, fairy tales, family stories, and more. So the food is late and your six-year-old is about to lose it. You know what to do: Using a marker and your napkin, make the fashionable *Lady Finger* and start entertaining. Better yet, pass the marker to your child to create *Handford*, and the two of you can put on an impromptu dinner show.

## Customer Reviews

My two-year old daughters just love this book. The craft part of making the puppets is something they love and I love doing with them. Once the puppets are done they just play with them for hours. Such cute and simple ideas. Nothing but great things to say about this book. Yay!!

What a great addition to any teacher's arsenal of ideas! I work in a pre-school, and the puppets in this book are perfect for not only our 3 and 4 year-old students to make at craft time, but are also great for our two-year-old classes to use for story time and more. From The Fab Five Fingers to Tiny Hero/Teeny Ballerina and A Puppet Called You, any teacher can bring a whole new dimension to their curriculum with this book. The templates are very helpful and a snap to re-create and the If You Have More Time Tips are wonderful as well. This book is a must-have for any teacher of young kids. Thanks Noel for inspiring more fun in the classroom!

Hi Noel, I received your wonderful book from the publisher. Thank you so much. It is absolutely terrific- the concept, the illustrations, the organization of it. You should be very proud. I hope they have to reprint more. It makes a wonderful gift. Love, Fran

I purchased three copies of this book. One for my son, another for my niece, and the other for a friend. This book was the hit of Christmas. The kids loved creating the puppets. Friends would drop by, and the kids would make more puppets with them. It is an unending book of ways to entertain your child. If you purchase this book, you will not be disappointed.

An easy-to-follow how-to eye-opener for those who think puppets have to be as simple as sox with eyes or as evolved as Elmo. Projects shown require different levels of input and/or expertise. Most are doable even by the short attention span demographic. The shadow puppet section explained some things we'd never figured out on our own. The patterns, if you need them, are good; but the do-your-own-thing projects are what attracted us.

I just checked this book out from the library but I'm going to have to buy a copy of my own. The puppets are simple and inexpensive to make - and very creative. The instructions, photos, and illustrations are very easy to follow. I especially loved the napkin bunny.

With these easy directions and great pictures, I can use this to make puppets for my class. The sock puppets are an easy and inexpensive way to bring characters to stories that are read.

A wonderfully accessible book that shows children how to make different types of puppets in an easy and fun way! 10 stars out of 5!
