Paper Models That Rock!: Six Pendulum Automata (Dover Origami Papercraft)

Synopsis

Simple directions and complete materials make it a cinch for crafters ages 12 and up to construct these charming paper models. All you need is a few pennies to make them move—the weight of the coins will help set the models in motion. Six automata include a nodding donkey, a gift box decked with a fluttering heart, a rocking robin, rolling bones that will tumble down an incline, a pair of tapping feet, and a tail-wagging dog.

Customer Reviews

It would have been nice if the patterns were perforated. Some corners, especially the small ones were difficult to cut. You will need snipping scissors to cut them. I like the cardboard pages. I haven't had the chance to put together because cutting takes time so I gave a middle review.

Fun for teens and adults who have some papercrafting skill.

Love the book, Rob's site is even better. robives.com
