Grade Level: Preschool - Kindergarten

## Customer Reviews

This is one of those books that is downright PAINFUL to have to read aloud to your kids. The names of the characters are so strange and it's hard to even pronounce some of them. And I almost laughed out loud at having to utter the words "Flutterfield Flutter Flower." The illustrations are okay which is why I gave it 2 stars...vibrant pink and purple and everything shimmers and sparkles, so that of course is why my 5-year-old daughter was attracted to the book in the first place. This was our very first Mariposa Fairy book and I am going to do my very best to steer my daughter away from similar books in the future. No redeeming qualities at all in the story. Just...bad. Negative desire to ever crack it open again.

I got this for my daughters because they have a fondness for fairies, but I have to say that this book lacked any kind of charm or appeal beyond the colorful illustrations. The writing is stilted, overly verbose and a little boring. My girls were fidgeting and bored about halfway through, not even

listening at the end. It just wasn't a great book to keep kids entertained and I ended up returning the book the next day.

Barbie is always fun in any form. My 3-year-old wanted to know where butterflies came from. Her mother found (on Utube) a video of a butterfly being born, and the little one was amazed that it began as a WORM. It was a learning experience even though Barbie's waistline has not changed a bit!

As we've come to expect from golden book, this was a wonderfully written, engaging and age appropriate story. My five year old niece was thrilled

My 4 yr old enjoyed this. Good length for bedtime. Like the barbie golden books best. Also recommend barbie and mermaid tail
