Grade Level: 1 - 4

## Customer Reviews

Bought one like this for my grandson 2 years ago when he was 4 and he loved it then. Finally found another one and he was thrilled to get it again. He is advanced for his age, so 4 years old is probably a little young for most to do the activities in this book. I would buy this again, and was looking for one similar for my 4 year old granddaughter, who is also advanced educationally.

All of DK's Star Wars titles are full of great photos, informative captions, and this one comes with a thousand stickers too. The early pages cover all of the major characters introduced in the film, and there are several "create your own scene" sticker pages too. Kids would definitely enjoy this book, but adult fans will get a good introduction to the people and places of The Force Awakens.

My kids liked it when it came.... But they finished it in one day. I got it for my 6 year old who got bored after he finished his stickers in one day and for my 4 year old it was difficult to identify the

stickers to where to stick them and I have to help him out.... I was looking for something which would keep them busy without my involvement

I got this for my friends daughter who is obsessed with Star Wars. There are so many stickers, high quality too! She's 6 so they didn't last long but she sure enjoyed using them. Definitely a good deal with the price.

These Ultimate Sticker Collection books are always a hit in our house. My kids have many of them. They keep them busy for hours on end. Very fun!

Great book! Five year old grandson absolutely loves it. The book has a very generous amount of stickers also!!!

Awesome sticker book!! Comes with a perfect variety of stickers from the new movie. Love it!

My 7 year old son loved this book! Lots of extra stickers to use on other things.
