## Customer Reviews

The Boris books are so much fun - for adults and kids. Each story is good to read over 3 evenings before bed. It's nice to have a slightly longer story, that keeps attention but doesn't last so long that new readers lose interest.

My 8 year old started off 2nd grade a bit behind in reading. And he was always very frustrated when it was time to read, because he was reading "baby" books. All the books around his level were

boring books. He was jealous of the kids in class who could read "chapter books". Well, I got this book for him, and he read it in a few days, and he ROCKED IT! He was SO proud of himself, and both his teacher and I have seen an improvement in his motivation and even fluency while reading his required texts at home and at school. Great idea for kids who need a bit more fun stuff to read, but aren't quite ready for the big chapter books.

This book is perfect for my son who is learning how to read. The stories are engaging, the pictures give him hints when he gets stuck, and the new words are repeated throughout. Also, the books are teaching my son about the world. The books have been leading to some fun and new conversations between us. This book is perfect for a new reader. We've already read the first four books. I hope more are coming! We can hardly wait. Who says that learning how to read has to be boring? Boris makes it fun.

Another hit! Loving these books--just wish more were out to order for the summer! Not too tough--these books are what my son goes to when he has to read each night. Highly recommend!

What a great series. Boris is brave, imaginative and clever as can be. I adore these books and love sharing them with the brave, imaginative and clever kids I know. More BORIS please!

Great story, nice pictures and a lot to laugh about. Andrew Joyner needs to expand this collection!!!

Dominic is an avid reader and liked this funny, easy to read book. We will order more for him.  
Thanks

This is a great chapter book, easy reading for the kiddos and great for the imagination.
