Customer Reviews

I bought this book for my grandkids (8 1/2 & 7 years old) to read before we went to the King Tut exhibit in Kansas City. They both loved it and were able to tell me the whole story on the way down to the exhibit. It was a great help for them to have this information beforehand.

I really liked the adventures of the main character. I didn't like that it was short. I wish it would've been longer. I would recommend it to be read by my classmates and kids around my age (I'm eight).

This is a well researched and well written book. Nice to see children's authors who actually do their homework! Most scholars can't or won't write for children and most children's authors can't or won't

do real research. This book is a wonderful exception!

I bought this book for my students as an additional resource during our mummy unit. They all love it, often I have a line of kids who want it next!

My son loved these books. Would recommend!

My son enjoyed reading this book. He is eleven and it was a bit easy for him, but a good read for just pleasure.

A great book for children. I had to read this for a book report and all I can say is meh. This book is not aimed at anyone above the age of 12
