This book is so awesome!!!! Better to get real book, not the Kindle version. It's a BIG hardback nice

quality book. Over 40 projects to make. Nice projects, not childish ones. There are many ideas for things to make for grandma, but most are geared for older kids...unless you're a parent who loves duct tape, then this is the perfect excuse, that you need to help little Johnny. My son is 12 and loving the book. Those teenagers who make their prom clothes from duct tape? probably started their skills using this book. (I highly advise purchasing one the 18 assorted rolls of tape from . You need a lot of duct tape) each project has detailed instructions but even better, LOTS of detailed pictures. It's hard to mess up with all those pictures.

I was surprised that this is a hardcover book. I missed that in the description. I gave it to two granddaughters to share and both were enthralled with the number of usable designs. I was pleased to see the detailed instructions. Prime got it delivered on Sunday just before the gift opening!

I got this book for my grandkids. My 10 year old granddaughter got ahold of it first and she has not let it go. Her brothers (all 4 of them) will just have to wait. I initially got 1 roll of original duct tape plus 6 rolls of patterned tape. She and her best friend went through that pretty quickly while making as many of the projects in the book as they were able. So I bought her 3 more original rolls and 2 more patterned rolls.

I bought this book for a family with kids ranging in age from 3 to 13. This book has activities that range from simple to more complex so it is appropriate for all ages and both genders. There are practical designs, such as the duct tape wallet, and fun designs for gifts, such as the duct tape rose. The book has many designs and thorough directions.

Perfect gift for my 12year old nephew. Tapped into his creativity in a new way. As part of the gift, I included a variety of the new patterned duct tape.

This is a nice, thick hard back book. My daughter loves it and there are a ton of ideas in it. She is duct tape crazy with all the different designs now and loves making wallets and all kinds of things out of it. Perfect gift for any one that has kids in to the duct tape craze right now.

Seems like it would be a great book but honestly many of the projects are just too complicated and long for kids. My 9 and 12 year olds use it along with the 30+ rolls of duct tape and some of the projects are 2-3 pages long. We end up coming up with our own ideas.
