I use this in the music classes that I teach. The kids love the part that everyone knows, but the authors have taken it a few steps further by adding additional verses. The verses are charming and make a great addition to this already established children's classic. The illustrations are hysterical and subtle. Make sure that you take time to examine them closely!

I knew this song was older than the book (1998) but I had no idea it was *so* much older. Evidently the song (or at least the first three stanzas) originally dates back to the Civil War. With acknowledgment to

boasts energetic watercolors and of course a memorable rhyme. Minus half a star for the lack of
hand jive clapping instructions, which I believe are included in the non board book version (Miss
Mary Mack: A Hand-Clapping Rhyme), and another half star because I would have liked a reference
to the history of the song, if only for parents.

We borrowed this book from the library for my 2 yr old grand daughter who loves ALL the Mary Ann
Hoberman sing along books. It was to the point I recorded them on my phone so I could sing them
to her without the books! I purchased the board book thinking that it would be the same, but it left
out a verse AND some vital pictures(the verse about the ketchup popping and the last page where
they float down to the party and there is an elephant shaped in ground pool) When I sing the board
book, My granddaughter always asks where the elephant pool is and ketchup popped. popped
popped. I also noticed that the pictures are smaller and parts left out. (the zoo keeper sleeping in
the from of the book when the elephant sneaks out). The board book is great if you havent read the
others.

Ordered this book after my daughter loved The Lady with the Alligator Purse. She can sing the
whole book herself so I thought in would try this one. She loves this one too. Loves the illustrations
as well.

I ordered this book as a big book to use as a shared reading lesson with my second graders. When
I received the book, it was not a big book, instead t was a regular sized picture book. Although I love
the illustrations and story, it was not what was in the description. I had to make a power point to
share it with my students in this format. I was going to return this book, but was unable to make it to
UPS in time. I'm very disappointed I paid \$20 for a paperback picture book when I expected a big
book.

I liked this book, like all of the Hoberman song-story books, but it was a little complicated for the
preschoolers I teach. The illustrations are complex and hard for a roomful of little ones to "get" right
away, - they often asked me what was going on - and I find that "the simpler the better" is a good

rule of thumb for this age group.

I've always known a few verses of this one, but needed to know the entire song/rhyme. Bought this for my 3-1/2 year old twin girls who love it. The pictures are great too and our girls often times will "read" it themselves by singing a story based on what they see in the pictures. And, being a board book, it is very sturdy and holds up to 3 year old hands.

The illustrations are sweet and children love books that go along with favorite songs. This song is always a hit with my k-2nd grade music classes and reading the book after we sing it makes it even better.
