Hooray For Inventors!

Synopsis

Hip, hip, hooray! Marcia Williams wields her witty comic-book style to applaud the creators of inventions that changed the world and to inspire the inventor in us all. What are your eight favorite inventions, and who were the persevering minds behind them? In a style as vivacious and accessible as ever, Marcia Williams honors the fine folks who brought us the printing press, the steam condenser, the steam train, the electric light, all of them stepping stones to ever more awesome inventions to come. Interspersed are brief snapshots of more than a hundred other inventions, from toothpaste to toilet paper rolls, the World Wide Web to, yes, sliced bread. There's also a tribute to women inventors—the force behind such indispensable items as windshield wipers, submarine telescopes, and bulletproof vests.

Book Information

Paperback: 40 pages

Publisher: Candlewick; Reprint edition (September 10, 2013)

Customer Reviews

Our favorite inventors book is "Great Inventors" by Gillian Clements. This book by Marcia Williams is full of her trademark happy illustrations and conversational asides. It is cute, and packed with information. Some of the pages become distracting, there is so much owl conversation and turtles frolicking, etc.

An absolute joy for my grandson, an very inventive person himself! Lively text and even livelier

illustrations. Thoroughly recommended.

My grandson was so interested in this book that he didn't put it down until he was more than 1/2 way through it!
