# TIME For Kids Book Of Why: Amazing Sports And Science

## Synopsis

TIME for Kids The BIG Book of Why: Sports and Science answers the why, what, when, where, who and how questions that kids commonly ask, but adults can rarely answer. Why does a curve ball curve? Why does a Super Ball bounce so high? How can David Beckham make a soccer ball "bend"? Why can eating chocolate make people hyper? Written in an upbeat manner, each answer is accompanied by either a photo or an illustration to show the reasons why. Of course, TIME For Kids goes beyond answering the question, and dips into the science or history to further explain the answer in an easy-to-follow, straightforward manner. TIME For Kids The BIG Book of Why: Sports and Science is a must-have book to satisfy the most curious of kids.

## Book Information

Lexile Measure: 960 (What's this?)

Series: Time for Kids Book of Why

Paperback: 48 pages

Publisher: Time For Kids (May 6, 2014)

Language: English

ISBN-10: 1603209867

ISBN-13: 978-1603209861

Product Dimensions: 8 x 0.1 x 8 inches

Shipping Weight: 4 ounces (View shipping rates and policies)

Average Customer Review: 4.4 out of 5 stars [See all reviews](#) (14 customer reviews)

Age Range: 8 - 12 years

Grade Level: 3 and up

## Customer Reviews

If you have a little time on your hands (pun intended) and love sports and science, you'll love making your way through this eye-popping book. First up you'll be treated to a bit of sports and then some science. If you're a sharp thinker, you could even think of ways you could combine them. Perhaps you run in the opposite direction when someone offers you a jalapeño pepper. The running might be the sports part, but "why does eating a hot pepper burn my tongue?" is the science

part. You'll learn several interesting facts about capsaicin, the h-o-t part of that jalapeño. The capsaicin doesn't bother birds though and you'll read about one interesting thing that happens when they snag those hot peppers. Back to the sports section. Perhaps you are into baseball and want to know a few interesting facts about Honus Wagner. If you've ever seriously collected baseball cards you may or may not know that his is the rarest of the rare. Just why is laid out right in this book. I'll only give you one hint and that's that Honus played for the Pittsburgh Pirates. No, it's not a good hint and you'll just have to read this book to find out just why that card is so collectible. I will tell you that there were a couple of one-armed pitchers, Pete Gray and Jim Abbott. One played for the St. Louis Browns and the other for the New York Yankees. If you guessed who played for which team, you just might be correct. That's just one more interesting fact in this "fact-cinating" book! This Book of Why is far from boring. The layout has great kid appeal, but very few grownups would be able to pass it by without taking a look. I know I did and couldn't put it down until the very last page. Now that page told me a lot about HDTV and standard TVs.
