Customer Reviews

Our son loves all of the *Weird but True* books. He has ADD and loves to read books that are filled with facts and shorter bits of information instead of longer children's books. He reads at least 30 minutes-1 every night before bedtime.

This is not a story book but it tells you cool stuff about different foods. Do you like to eat? Do you like food? Read the book and you'll DROOL. I learned many interesting food facts and I like the fun pictures too.

Our 12 year-old grandson is more than an avid reader. He absolutely loves all the *Weird But True* books. They are chock full of loads of facts that one would not learn in any other book. Example: I handed him a certain brand of bottled water to which he replied, "I don't want that brand." I asked him why not, and he said "the water has too much salt in it." I stopped drinking that brand too,

because I can't get it out of my mind. I cannot recommend the Weird But True books enough if your child loves learning new facts.

My 9 year old granddaughter and her friends love it. She is now 10 and still loves all of the "Weird" they read every page and question each other. I'm impressed.

My grandkids love this book. Any inquisitive child will spend hours reading and rereading this book. Even the grownups found some fun facts in here.

Amazing Author, Perfect Material To Entertain & Educate Young Minds Sarah Wassner Flynn Is Extraordinary!!
