Customer Reviews

Love the book, but we received a used one that was suppose to be in excellent condition and the snappy alligator top does not make the noise it's suppose to. I will review the retailer/book store with less stars.it's such a catchy, fun story. My little girl says snap, snap, snap all the time.

This book is adorable. One of my favorites I have gotten for my grandson. I got a small stuffed alligator to go with it. The mouth on the book makes a cute snapping noise when it is opened and closed. I haven't given it to him yet but I am sure he will love it.

My 2.5 year old is obsessed with crocodiles/alligators so this is an ideal book for him. He loves the

story and pictures, and the poetry is fun and lyrical. However as other reviewers have mentioned, the gator head not only requires strong hands which he didn't have until recently, but also breaks easily. Toddlers being who they are like to stick things in there for him to bite, or pull the head away from the book to figure out what's going on. So I have to hold the whole upper jaw to make it snap now, alas. It is a cute book though, better than the dolphin one, writing wise.

My 11 months old *LOVES* this book. Yes, the rhymes are bit tricky the first time but once you get into the tempo/ rhythm it's an awesome read. (My musician husband also approves.) This is one of the few books that has my son in totally captured throughout. We haven't yet had a problem with the snap and I hope we don't bc that is def his favorite part.

I love the rhyme and so does my 2 year old son! So much fun! Once you've read a few times, it becomes more of a jazz song than a book. Read other reviews that said it was hard to read. It's not! Just get into the groove! Also, other reviews said that "snap" broke, well ours is going strong! This is by far my favorite book to read to my son and he LOVES it too!

My daughter (now 11 months) absolutely loves this book. She enjoyed it for about two months before Andy's head fell off... I managed to glue it back on, but it came off again in a day or two. It is a really fun book to read and I do recommend it. However, if you want the book to last it might be wise not to allow younger children play with it on their own (taking some of the fun out of it for them, unfortunately).

My 6 month old granddaughter loves the "snap, snap, snap" alligator! Really cute, interactive book.

It is a great childre's book and loved by all ages.
