Don't mess with Lunch Lady. This yellow-gloved cafeteria worker will take you down. The latest book in the series, LUNCH LADY AND THE MUTANT MATHLETES, opens with Lunch Lady putting a stop to a robbery with Batman-style fighting. From there we get into the main story, which is about the mathlete team. Dee, Hector and Terrence skipped out on the museum tour, and the principal hands down his punishment for them: they have to join the mathlete team. It's definitely punishment; as Dee puts it, "Who would voluntarily choose to do math after school?" But the three of them are good at math, and the school mathlete team is soon winning competitions. However, the odds are stacked against them when it comes to winning against the Willowby Academy Mathletes, who have

never lost a match. Lunch Lady thinks there's something odd about them and decides to investigate. Of course her suspicions are correct, and something sinister is afoot with the competing team. Lunch Lady will have to use her super (or not-so-super) powers in order to save the day and let her school's team get a fair chance in the competition. To say Willowby Academy is made up of sore losers is putting it lightly --- these people are dangerous! But Lunch Lady can handle it --- I don't know of any other superhero who has pineapple mace. The Lunch Lady books are fun, quick reads for kids, with lots of zany and culinary-inspired humor. Though Lunch Lady is the titular character, she's only in part of the book, with Dee, Hector and Terrence also playing important roles. The art has that purposefully cartoony style, like something you might see on Cartoon Network or Nickelodeon, and the colors come in black, gray, white and yellow. Is that to bring more attention to Lunch Lady's yellow gloves? Lunch Lady is definitely the one who steals the show, and readers who enjoy this book ought to check out the others in the series if they haven't already. Reviewed by Danica Davidson

The Lunch Ladies are reliably funny, creative and allied with the forces of justice. The situations become more and more fantastic as the story goes on, which keeps them from being frightening. Odd tools are required, and the lunch ladies always have what's needed, in the form of some food or kitchen implement - a spatula-copter, or powdered eggs for the fire sprinkler system. The lunch ladies always manage to capture the bad guys and stop their evil schemes. Good fun!

My son loves to read these books-not many other books. If he likes these books, I will support this always!

It's a really funny and cute series. I am enjoying them so much. Since I am a lunch lady I may be able to share some of these stories with our students.

My younger brother loves this series and this book is what he calls epic. he said "great book" for him and wants to read more of "the lunch lady"

My 9 yr old son really liked the book. Trying to get him to read more books (hard copy) and on his Kindle. Good start. Would recommend.

It's the best book I ever read!! My favorite part was when the mutants attacked. I'm going to tell all

my friends to read it.

Awesome book to maintain your child's interest in reading. A great buy for both you and your children. Very satisfied.
