# Lunch Lady And The Schoolwide Scuffle

## Synopsis

Lunch Lady and Betty have been unceremoniously cut from the school budget, and the timing couldn't be worse—the villains from all nine of her previous adventures are worming their way back into Thompson Brook with a masterfully devious plan. ## Customer Reviews

My son (he's 9 now, but discovered the series when he was 6) reads and re-reads these and when friends come over, they often can't put it down and end up wanting to borrow a Lunch Lady book. This one is the same enjoyable experience to be read time and time again.

If you have a reluctant reader this might be a series for your child. All of my children (girl 11, boy 9, boy 6) enjoy this series but especially my 9 year old boy. This series really got him into reading on his own. What's not to love about a Lunch Lady who is a secret ninja master?

My students couldn't wait for this book to come out. They weren't disappointed when they read it

and recommend the series to many of their friends. I recommend the series for 2nd and 3rd grade teachers.

Can't go wrong with the Lunch Lady series. My son has read them all... over and over again. His class has many reluctant readers so we sent them into school and they are a HIT! The boys are waiting in line to read them.

Did I just read in the above description that this is the final book in the Lunch Lady series?!? Please, say it aint so!!!! Maybe, possibly a washbuckling finale! refers to the conclusion of the story-line/cliffhanger from book 9?? Well whatever the case this was another exciting over the top comic book adventure with the lovable Lunch Lady, her faithful sidekick Betty, the Breakfast Bunch and many other students and staff of Thompson Brook Middle School. This is THE must have series for elementary age students that say reading is boring.

This was the first book I read so great job. I enjoyed it alot with good humor. I hate to give this book four stars it was just so easy for me to read it and it costs a lot and some of the lunch lady books can't go on the kindle. But the book was awesome :)

My kids love this entire series, and this finale didn't disappoint. Villians from previous books re-appear, delighting kids who have faithfully read the earlier books. There's humor here for adults to enjoy as well, or at least for those who went to schools like the one depicted in Krosoczka's' graphic novel universe.

This was a continuation of the previous books. It ties in the story line. My 7 year old daughter loves the Lunch Lady character, especially the food gadgets Betty developed.
