I'll include a silent flip-through video as well as a few sample photos so you can see if this book will work for you. I enjoy coloring postcards with their fine details and tiny elements. Harry Potter Postcards also add a bit of fun into the mix. The artwork is based on the first Scholastic Harry Potter book for adults *Harry Potter Coloring Book* and I appreciate that it is for pulls its artwork from only one book (unlike the poster coloring book which is a combination of two books.) While I might have preferred a different mix of designs, the ones included are good and I will enjoy coloring them and sending them to just the right family and friends. The designs are sized down and include many small details. I find that a mix of ultra-fine markers, small nib gel pens and sharp pointed pencils work best for my coloring. Here is a brief overview of what I found in this set of postcards: 20 Different Harry Potter Postcards with black and white artwork from *Harry*

Potter Coloring Book
•Printed on one side of heavy weight, slick, white card stock
Address and stamp areas are defined and printed on the back of the card
Postcards are glue bound but can easily be removed from the booklet without design loss
Alcohol-based markers do not bleed through this card. I tried several applications of each type and could not get a drop through.
Water-based markers, India ink and gel pens do not bleed through the page.
Gel pens take a much longer time to dry but have beautifully intense color.
Coloring pencils are mixed. The colors go on dark and solid but blending is not good for any soft lead that I have though the wax pencils work the best. Layering is good. Hard lead pencils make good clear marks and don't dent the back of the page.

I loved this little postcard coloring book. The paper is high quality and tough and sturdy like a postcard should be. Be warned, this is small because, after all, it is a Postcard. Do not expect a huge coloring book with this item. The only problem I see is trying to part with the pictures and sending them to someone else. I want to keep them! Huge 5 stars!

This is awesome Harry Potter coloring book. I have bought all of the series they have made so far (I think about 5/6) I am still waiting for the pre-ordered, hence why I forget the count. I recommend these books. Thanks :)

This is the BEST idea ever. Adult coloring meets Harry Potter? What more could I ask for? As a bonus, these are post cards too! Each page is very thick (typical postcard thickness) and has a seaming on one side and lines for the recipient address and stamp on the back. Some of the pictures are depictions from the movie, others are the House crests and others are patterns of Harry Potter related images. I can't wait to send these to all of my HP friends.

more class A work by Scholastic. Bear in mind these pics will be smaller than others because...they're postcards!! Very well drawn and detailed. No issues with pages bleeding from one page to another with no break. Those of you compelled to do so (not I) can rest assured these can be hung for display OR mailed with the knowledge that mail carriers around the world will remark in awe at your expertise in coloring. yes. i'm a smarta\$\$ at times. no offense meant to those of you who consider that bit of information to be of vital importance. I'm truly sorry if you thought that this was offensive and an intentional barb thrown in your direction. Nope. It was meant to be a subtle nudge of assistance. LKC

I have always loved the Harry Potter series and this is amazing to have a coloring book to make the scenes and characters look the way I felt like they looked when I read the books. If you are into Harry Potter or you just like detailed coloring books this is for you.

My daughter is 12 and loves to color and loves Harry Potter. Most of the time coloring books are too easy for her age but this one is perfect, it's a bit more complicated and it interests her because it is Harry Potter. She has had so much fun coloring in this since I got it for her. I love that it is cardstock paper so it is sturdier. I told her when she is done I will laminate them so she can hang them in her room.

There's a good variety of detailed images, from simpler to more complex -- BUT please be aware that these are slightly bigger than standard postcard sizes, and depending on your USPS office, they might not mail them if you only use a postcard stamp.
