Excellent source for the beginning artist or someone who just loves to doodle. The illustrations are

clear & concise & the color representations are a beautiful example to guide you to the correct colors of each dog. I loved it & even though I'm more advanced I found many things helpful in my venture into the world of drawing dogs & puppies. Would definitely recommend this book for anyone with a artistic heart.

My daughters love it and that's what counts. They loved it so much that we ordered the cat drawing book, too! Great detail and very good step by step directions to drawing a nice variety of dogs and puppies.

Daughter is very happy and has already drawn several dogs :-)

I ordered this book for my grandchildren. We regularly draw together and thought they'd enjoy the independence of learning at their own pace. They've enjoyed this book and it has proven to be very helpful as they've learned how to more accurately draw dogs.

Filled with photos, factoids and instructions for simple illustrations. Great gift for any boy or girl who loves dogs. Make sure that you receive the full 64-page version of the book as described. I received two versions at the same price point (under \$8) - the 64 page book is a great deal while the alternate, more flimsy 32-page book that comes with some mini colored pencils is clearly not such a great deal by comparison. Included this book as a gift for a young dog enthusiast along with "Grandpa Beck's Nuts About Mutts" card game and "Klutz Dress Up Your Own Paper Pups Craft Kit". However, the 64-page book is pretty substantial on its own. (The slimmed down version not so much.)

Great book for kids!....very easy to follow and draw.....I highly recommend if your kid(s) like/want to draw animals!

bought for my 8 year old who loves to draw. she hasn't put it down.
