Best Sellers Rank: #641,050 in Books (See Top 100 in Books) #58 in [Books > Calendars > Science Fiction & Fantasy](#) #333 in [Books > Calendars > Movies](#)

Customer Reviews

And Star Wars fan, I found this hilarious. This is a collection of cartoons of Darth Vader spending quality time with his little girl, Princess Leia. From Leia as a very small girl to Leia as an attitude and angst ridden teen, Vader has to deal with the complexities of fathering a girl. I feel his pain. I liked the ones where Vader is holding back his first reaction to keep from hurting his daughter's feelings, or where he is patient with her when he really doesn't want to be. But the ones where Leia introduces her boyfriend, an adolescent Han Solo are side-splitting. An excellent gift for any nerd dad who needs reassurance that what he does for his daughter is normal. Edward M. Van Court

The problem with "Vader's Little Princess" isn't in its illustration, but rather its content. The jokes just don't work as well as they do in "Darth Vader And Son," and I'd hazard a guess that has much to do with the fact that author Jeffrey Brown does not have daughters of his own. Where "Darth Vader And Son" was written with the understanding that comes from being a father to small boys, the jokes and content in "Vader's Little Princess" appear to stem from stereotypes of what one thinks life with a daughter would be. Overall I'd say that "Vader's Little Princess" is a good title, but its failure to grasp the subtleties of being a father to little girls causes it to fall short of the greatness

that the previous title held.

Completely adorable! Hilarious! Loved it! A must for Star Wars Fans! I laughed all the way through it, and kept thinking, "oh, my GOSH... my kids!". But, if you get this one, you have to get Star Wars: Darth Vader and Son (Star Wars (Chronicle))

We ordered this book because we LOVED "Vader and Son". "Vader's Little Princess" is cute, but it feels less authentic and less original. I'm sure this is in part because it's a sequel, but Leia just feels very one-dimensional to me - as if the author is relying too heavily on stereotypes about daughters.

This book takes the reader on a journey of raising a daughter from toddler to teen in a humorous Star Wars style. While Jeffrey Brown's previous book Star Wars: Darth Vader and Son (Star Wars (Chronicle)) stayed within the toddler and early elementary years, only a few pages of this book are dedicated to the younger years. It mainly ventures into the teen years with clothing disputes, driving lessons, dating, school and friends. Some pages are not as funny as others, but show Vader in a typical father role and are funny enough for a smirk. Other pages were down-right hilarious! It's a cute book that any Star Wars loving parent of a daughter would adore.

What if our beloved Lord Vader was the responsible to raise Leia ? Would she become a rebel eventually ? Star Wars fans must have this one ! The cover shows Leia still a little child but inside you will find a teenager Leia making Vader wondering what is more hard to accomplish : defeat the rebels or tame his little cute girl ...Star Wars fans ...buy this book !

What a disappointment. It'll be funny for me to keep on the shelf and a conversation piece but just horribly written. The story isn't linear and has no substance to it to keep anyone's attention. It's like the author has ADD.

My five year old is a huge Star Wars fan. We saw this book when it came up for pre-order and bought it right away. It arrived last week, and we read it together right away. It's a cute book with very good illustrations. The text is a little choppy with a bit of a rough flow. However, my daughter really likes it.
