6-Scene Sequencing Cards

Synopsis

Sequencing is an important reading skill for all age levels! Everyday events are illustrated on a series of cards that can be used in a variety of ways. Children can put the cards in a logical sequence, an important step to becoming successful readers. Sequencing cards can also be used to develop storytelling skills. Forty-eight heavy-duty 4" x 4" cards are easy to handle and come in a sturdy storage box.

Customer Reviews

These cards are a good tool to teach logic and sequencing to my 5 year old. He is in speech therapy, so as an added benefit, after the cards are in the correct order, I have him explain each picture. This helps with vocabulary, grammar and speech. I knew he would be tested (in Pre-K) on sequencing, so I bought these. The box and cards are sturdy and seem like they will last well.

As a Kindergarten teacher, I use these sequencing cards in differentiated learning centers. This set of 6 sequencing cards are used as a progression following mastery of 3 and 4 step sequencing skills (sets also available on). Clear, colorful illustrations enable young children to readily focus on details that aid in determining order of sequence. Made of sturdy cardboard these hold up well in a heavy classroom use. A center favorite!

Enjoyed using these sequencing cards with the kiddos. Nice, colorful pictures, depicting

easy-to-discuss actions (e.g., child making pizza, child setting the table, boy dressing up as a clown, fireman puts out a fire). For lower-functioning students, taking out a couple of the sequence cards (i.e., giving three instead of 6) was helpful and successful. Great deck of cards, durable, only wish they had other sets because I would purchase them!

I ordered these cards for my five year old kindergartner. I love the six-scene cards because if need be, you can always take a card or two away to make it a bit easier. I started out with a four-card scene and after he got the hang of it, I added in the remaining cards. He is getting very good at sequencing and now loves his new "game". I wish I had had these for my older son.
