Look What You Can Make With Tubes: Creative Crafts From Everyday Objects

Synopsis

Nearly one hundred big, beautiful pictures and just as many idea sparkers for delightful crafts fill this entertaining book that includes holiday decorations, gifts, and games. The detailed photographs make following the step-by-step instructions a snap. Not only will kids have fun making the crafts in this book, they're bound to come up with plenty of craft ideas of their own. It's amazing how many crafts can be made from household items such as cardboard tubes and how many hours of creative fun these crafts can provide.

Grade Level: 1 - 9

Customer Reviews

Numerous creative projects that can be made with commonly available items. Save a variety of tubes. Purchase common supplies. It helps if the sudden creative urge of the youngster can be completed on the spot without needing to wait for the items. Supplies are listed with each project picture.

it is the same book I already had, they just changed the cover. The activities shown on the front are not even in the book. I really wanted to see how they made the train since my son loves trains. Not in the book. Very disappointed

What a fun book. It's a book that all ages I'm sure will enjoy. A great way to recycle toilet paper and paper towel tubes plus the ones you get on your Christmas wrap.

I love this book. The illustrations are wonderful. The tube projects require nothing exotic. Yes, there may not be anything really new but when your grandkids see what is possible and make a tube castle that kinda looks like the illustration but sooooo much better. Their imagination takes over and they make a moat from a plastic angel food cake pan, a dragon flying from a stick, pink rocks, every project becomes a work of art. This book is a great starting point for lots of fun.

no patterns. made this book of no use to me.

Nice reference on what to do with tubes, great examples and good visuals. I would recommend this book to those who love to teach. These are projects to collect for and do with all ages of kids.

I volunteer at the primary school where my son and daughter go and help out with reading classes and art. I got this book and others to help with during handycraft. The teachers and children love it.

Already used this book with my grandson.
