## Customer Reviews

Buyer beware - there are two versions of this book listed under the exact same title, and nowhere on s' description does it mention this. The "Blue cover" contains more advanced arrangements, the "Yellow cover" is for beginning players (try clicking the "see larger photo" link on the yellow copy - notice at the top of the image it says "Easy piano solos"). Since fails to mention this, make sure you get the one you want. I bought the "blue" copy and am reasonably satisfied, especially given the price. Don't however be misled that the "blue" book will be too advanced for you if you have been playing piano for more than a little while. The arrangements in the "blue" book are themselves quite easy.

This music book is GREAT! Eventhough the songs are not in their original arrangement, they still sound great and are not too hard to play. A must-have for any beginner pianist who wants to experience some fun, light-hearted jazz! (Pianists in the intermediate level should try to find the 'blue copy' of this; that has the same songs, just in their original form!) My personal favorites are "You're in Love, Charlie Brown," "Charlie Brown Theme," and "Peppermint Patty." If you're looking

for a very good arrangement of "Linus and Lucy," however, look elsewhere. Other than that, I very HIGHLY recommend this musicbook!

This little book is fun for my piano students who love Charlie Brown. I usually bring in fun music once they have an understanding of the basics. I still teach the regular method book but add 10 minutes of lesson time for some fun songs.

I bought this piano book for my 12 year old son. He loves the Peanuts theme & when searching for piano book that would meet the needs I was looking for, this was the perfect book. It's at his level, so I am sure he'll be excited to open it on Christmas day.

I bought this for the song in it linus and lucy and as the title says easy piano songbook it still isn't the easiest BUT i haven't practiced it that much and i'm twelve so others might find it easier.

My great grandson loved the book. He is 7 years old and has been taking piano lessons. His dad has a musical background and they are planning a concert for the family.

Familiar tunes that the kids could play. They've been playing for about 4 years and had no trouble with the melodies. Not too easy that the songs odd.

great gift as my son love's The Peanuts cartoons and music.its a great book for those trying to learn playing piano
