This was bought as a replacement to the same book that just wore out. My daughter loves this book. She sleeps with it. Moon and star did not work when I got it in the mail changed battery now it works fine.

My husband loves to sing to our daughter and is musically inclined. We can't stand this book because there are too many syllables to fit with the notes of the music. One page wants you to somehow fit the two syllables of "moonbeams" into one note of the music. There are two different pages for one part of the song - one for "mama's kisses" if mommy is singing and one for "papa's kisses" if daddy is singing - which still doesn't make up for the difference in syllables and notes. It also switches from an aa bb rhyme scheme to not rhyming at all. The illustrations are very cute, but it defeats the purpose of having a book that plays a melody if the words don't fit and it can't be sung together.

In the book description it said that it plays Brahms' Lullaby and Good Night. I bought this book because I have a copy that does play the lullaby. I wanted to give this copy to my sister, but when it showed up at my house it did not have the button to play the lullaby. The picture clearly shows that it should have this function, and the description also says that it will play the lullaby. I was very disappointed.

My 2 1/2 year old son loves this book. He gives it to us when he wants to cuddle. Both parents are doing nightly things in the book, like giving a bath, or putting away clothes, or picking up toys. The star plays "Brahms's Lullaby" or "Lullaby and Good Night". My son always wants us to tell him what the mommy and what the daddy are doing on each page. Comforting pictures, calming colors, the moon glows when the song plays; really like this book. Use it a lot, and the batteries don't wear out too quickly, so don't worry about that.

My 2 year old son LOVES this book. He likes to read it, but mostly he likes it for the soothing lullaby it plays and that the moon lights up softly as it is playing. He will not go to sleep at night without this book with him in the crib. In fact, this was my second time purchasing this book so that I can simply swap them when the batteries die out. I have to change batteries in it about every month, but only because he plays it soooooo much.

We originally got this book from a store, but after a while the battery ran down. We purchased several copies from Amazon and gave them to children we love.

This is the second copy of this book that we've purchased. My grandson loves it so much that he wore out the first copy.

This book is a short but sweet bedtime book and, when you press the moon in the upper right corner, "Twinkle Twinkle Little Star" plays. I bought this for my baby son, but my 3 year old daughters took it over. One in particular likes to take the book to bed with her and will "read" it until she falls asleep. Highly recommended!
