Grade Level: Preschool - 3

Customer Reviews

In this story George and his friend visit the zoo to see a new exhibit. George witnesses a zoo keeper feeding the seals and decides it would be fun to share his snack with the other animals. Because George can't read the signs by the animal cages he doesn't know that you should not feed the animals. After giving the zoo keepers a merry chase he is caught and told that feeding the animals things they shouldn't eat can make them sick. George feels bad and makes up for it by helping the zoo keepers with the new exhibit. Excellent story and introduces a number of different animals for children to identify.

I really enjoyed the narration on Curious George rides a bike--a man reading and doing all the voices. My daughter and I thought his reading was so amusing that I bought this one. I was disappointed--this one is a woman reading, with a couple other voices, but not great. The book is also softcover and not that long. I would stick to some of the other Curious George books. This one is going back--not worth the price.

My 3 1/2 yr old son loves Curious George books. They are just the right amount of words on a page, with drawings that hold his interest while I read them. Takes about 5 minutes to read this to him, including time for his comments:) He loves the sticker page at the back because when we finish reading the book, he puts one sticker on his hand and sleeps with it during the night.

Good book. This is one of the older curious george stories and drawings. Not one of the newer curious goerge stories and drawings.

Love the books that are designed for Kindle! Though you can get many children's books on Kindle, some are not actually designed for the Kindle so the font and pictures are very small. This book works great on Kindle, my children enjoy it.

This is a nice story about Curious George who goes to the zoo and tries to feed the animals. It is read nicely and is easy to follow while listening to the cd. My 2 year old can do it alone with the turn the page signal.

I love all the curious George books. Who Doesn't?author of "Hobo Finds A Home"

My son 4 Loved the movie and I loved the book when I was a child. This adds to the pleasure of knowing this great little guy (george) I can say I believe you will love it also.
