## Customer Reviews

This flip-the-flap kept my granddaughter busy for awhile trying to find which mode of transportation Baby was on. Baby wasn't on the school bus, airplane, train or truck but when you lifted the flap you found various animals were there instead. Big illustrations and bright colors attracted Brynn's attention and held it for awhile. That is high praise...believe me! Book supplied by publisher.

Really a cute book! My grandson loved it! He liked the big pictures and the flaps to open. One of his favorite books. Will purchase another in the series!

My son (14 months) loves the Karen Katz Lift-the-Flap book. He especially loves this one and

always wants us to read it. Now when he sees a car he goes mmmm mmmm (zoom zoom). He even points to the garage and says mmmm mmmm.

This is my baby's favorite book. We had another Karen Katz book "Daddy Hugs." I noticed he was more attentive and engaged with "Daddy Hugs," more than other books. With other books, his eyes would wander and he'd get easily distracted. I think he was attracted to the vibrant colors and patterns in "Daddy Hugs." So I decided to order two more Karen Katz books. "Zoom, Zoom, Baby!" gets the most reaction from him because of the flaps. I am considering ordering more "lift-the-flap" books for him. I highly recommend Karen Katz. Other books, like the popular classic "Goodnight Moon" are not as colorful. In fact, "Goodnight Moon" has many pages that are in dull grayscale.. these are the pages that my baby has absolutely no interest in and will start looking away from the book. There's even one page with NO illustrations that reads "goodbye nobody." Seriously?? You're better off with books like Karen Katz's.

My two-year old LOVED the flaps, the animals, the baby, the vehicles... I highly recommend it! I read it and re-read about five times as soon as it arrived! I will shop for more Karen Katz books for sure!

This is my grandson's FAVORITE book, we read it over and over and over again. He tries reading it to himself turning each page saying "no" and laughing. I can not recommend this book enough!! I also got the Toes, Ears & Nose book and the Where is Baby's Belly Button - they were OK but nothing compared to this book.

Good book for under 4 dollars. My son at 6 months thought it was great and wanted to read it a second time. He liked the large high contrast letters, flaps, and mommy saying noises. Mommy did not let him touch the flaps though because they could cause paper cuts esp with his current dexterity. At 8 months old, my son still loves this book. Its in his top 5!

I bought this for a 1 yr old child, and it's a HIT! I knew the kiddo loved it when he kept picking it from the bookshelf and saying, "Baby Read". He loved the book so much I bought the series written by Katz.
