Animals > Pigs #1343 in Books > Children's Books > Humor

Age Range: 3 - 7 years

Grade Level: Preschool - 2

Customer Reviews

I love most of the Olivia books but this one was a little disappointing. I think it may be a little too wordy at this point for my two year old. After I get through one or two pages, she is ready for another book. Hoping she will learn to like it just as much as she loves all of her other Olivia books.

My 3 year old LOVES Olivia. She got this one for a gift, and I have to say it's not written as well as the original Olivia books are. She's just not that into this one, like she is with the originals. We will stick with the ones written by Ian Falconer.

Soft back book and easy to clean pages. Nice story for all girls who love Olivia and tea parties. My 2 1/2 year olds really enjoy the Olivia series and we have nearly all of them. Nice for parents to read along.

My youngest daughters name is Olivia so naturally we like olivia the pig. We like that the books follow along seemingly word for word with the tv series. This makes it more fun for voice impersonations. I give a four star because my only complaint is that the hardback Olivia books do not all come in the same size. This seems like a silly comment except that I do not have this problem with other books we are collecting.

When did Ian's name interchange between Ian and Julian? Talk about confusing a kid! My two-year old goes "Who's Julian?!" There's at least another random apostrophe without a need for possession. Just embarrassing!

As soon as I received this in the mail, my four year old grand daughter had me read it to her and now it's one of her favorites. She loves OLIVIA and likes to have books read to her or watch the videos we've purchased.

I purchased this for my 4 year old daughter, who is a big Olivia fan. She watches the show occasionally and we have all of the original Olivia books. We've read it together at least 15 times and she's still not tired of it. I like that the pages are thicker than most books and the cover is sturdy.

my daughter has multiple books on Olivia. this was another great addition. writing is simple for kids to read and humor is clever for them to understand
