My 3 year old daughter is crazy about Peppa Pig and so I surprised her with this book!! she was beside herself with excitement and couldn't wait to read it and now we read it OVER AND OVER!!! she doesn't get tired of it and now she is reading it back to me and it is precious! I would definitely recommend this book. It is well written and follows several of the episodes and combines them into one book. It exceeded my expectations....when it arrived, I thought it would be a regular sized hardback book, but it is a big book and comes with a paper cover as well. Great item!!

My son loves Peppa pig. He just started pre-K, and we bought this book, to ease his nervousness. He loves the book, and keeps it near his bed when he sleeps. The book really helped him ease into the new school environment, and he tries to relate his school activities with the things in the book,

which I think is really good.

My 3-year-old loves this series (even though I can't stand it). She walks around holding the book and I don't have to worry about her destroying it because the pages are fairly sturdy and it is cheap to replace. Encourages reading.

My 3 yr old daughter is a Peppa Pig fan. She is truly enjoying this and it's helping her more with her alphabets and sounds. One page has a word and picture for each letter of the alphabet. The book is paperback but it's printed on quality paper. I'll definitely be ordering more of these books for her. This is one of two Peppa Pig stories she has right now.

Peppa pig is my granddaughter's favorite character. She loves the peppa pig book, she reads it every night. Thank you all for having the books that my granddaughter loves. Looking forward in purchasing more books in the future.

My 2.5-year-old loves reading this book. It's pages are made of glossy, sturdy, good quality material. The story is simple, illustrations are delightful, and colors are vibrant. Peppa Pig fans can identify all of Peppa Pig's classmates. There's also a page with the whole alphabet and words that start with each letter - a good practice for toddlers to identify. There's a page with the numbers 1-10 as well. Informative and fun to read.

I bought 6 peppa pig books for my 2 in a half yr old daughter for Christmas and I think she will love them at bed time. I also think the books are made great and there are more pages than I thought there would be for the price I paid for them. Def excited to see her face when she opens them on Christmas morning!

A perfect Peppa Pig story. When you want your little ones away from the TV, this book will help. Colorful, cute, and just like the show. It's an excellent complement to the cartoon. Especially at bedtime.
