## Synopsis

The latest in bestselling author Kathryn Lasky's stunning wolves series! Faolan has always been an outsider. Exiled as a pup, then shunned by his fellow wolves for his unusual connection to the bears, Faolan has struggled to earn a place in the pack. But a terrible danger is looming on the horizon, and Faolan is the only one who knows how to fight it. Will he be able to claim his rightful place as leader? Unless Faolan can inspire the pack to stand together, it could be the end of the wolves of the beyond.

## Customer Reviews

My 8-year old grandson loves this series! I read the books as well, and found them an engaging tale of the travails of a young wolf cub, was left to die because of deformity. The author uses a lot of Celtic-styled words through the story and my only complaint was that one wolfish curse ( in a dialog reminiscent of Patton's famous speech just before D-day) that was far too close to a common English "cleaned-up" version of his actual word that is commonly used in impolite conversations. I sent the author an email, and she immediately responded, offering to chat with me by phone. We had a good discussion and she hadn't thought about the similarity, promising to avoid that in future titles. I was amazed to actually get a reply, and it was from the author , not some staffer! A big 2

thumbs up for integrity!

In this continuation of the Wolves of the Beyond series, a new tale is woven. At first it seems to be that this is just another book. Another book in another series. But no. Pay attention and you will see that the worlds of owls, wolves, and bears are more intertwined and more connected than ever thought of in this world of the Beyond. Faolan is on the edge of a discovery that could change his life. Mhairie and Dearlea are sure to have their adventures with the Namara wolves. Who I really look forward to are Edme and Gwynneth. Their stories seem unfinished and for that I am eagerly awaiting book 5. What with the amazingly well woven story Lasky puts before us, the characters who are so well given, and the stories yet to come I will most definitely stick with this series to the end.

Picture this. Every morning when the alarm goes off, my kids come running into our bedroom and jump in bed with us and I read another chapter of Wolves aloud to the family. Then we all whine about not having time to read more, and move onto our day, looking forward to tomorrow morning. I couldn't be more grateful to Ms. Lasky for helping make our mornings loving and fun.

I'm 13 years old and I bought my first 2 Wolves of the Beyond series books at school. I never read books before this series. There is something about these books that really captured my attention. They are very interesting and with awesome life lessons hidden inside the stories. Now, I became a passionate reader! I bought my next 2 Wolves of the Beyond books here on with the help of my older brother, who ordered them for me. I'm truly glad he helped me with this, because now I can't stop reading this awesome series. I totally recommend Wolves of the Beyond series books!

"Hello there I'm Dalikki Of The Silver Mountain Pack and MacKarion clan and this book is amazing but fighten is not a word in one part of this book" - Dalikki "Urskadamus!!! I wish I was a character of this book but I'm just a made up wolf a malacadh I think it's called is what I am and I have a missing leg but I'm a great runner like Creakle of the MacDuff clan and I'm a Brown wolf mixed with tan, white, black, and dark gray and my eyes are green with gold flecks but if MacDuncan MacDuff MacAngus lone wolf I think or something or an outcast I'm fine with whatever" her tail flicked in a happy gesture "Please let me be in the books" - Dalikki \*~\* Sketch Out!! \*~\*

Great book, I would read all these books in the series in a heartbeat. I'm reading #6 star wolf. Star

wolf is the last book she makes in the series so far. But next I'm gonna read Guardians of Ga'hoole by the same author. Hope you like these books as much as I do.

It is a hands down, award-winning, awesome book. This is my second favorite series we are talking about. I have loved it from the very first page of the first book to now. And I am not giving this series up now and not ever. If you have given up on Folan, don't. Because he is an honorable wolf and I believe in him. I know though, if you have gotten this far, you are probably in love with this wolf already. Never doubt a book like those. Keep reading and something might change you. That is what happened to me with "The Black Stallion". Ever since that book, I have been a horse crazy girl. By the way, it is a great book and you should read it. In other words, go Folan!

Kathryn Lasky has captured the imagination of my granddaughter. This birthday gift of the last three in the series was excitedly received! I would purchase other books by this author and definitely from this seller.
