Age Range: 3 - 6 years

Grade Level: Preschool - Kindergarten

Customer Reviews

We have many of these Disney Read-Along audio books. The ones based on the Disney movie follow the movie story line pretty closely, and incorporate actual dialog from the movie with the original voice actors. They are also written for the 3-6 year old audience, as intended, with simple words, no scary parts, and the books tend to be short. This book also follows the movie story line BUT Captain America is PG-13 and appeals to older kids and adults. So it did NOT translate well to a book for young children. First of all, there was way too much text. The book is wordy, each page is full of words, and the story goes on forever. My 5 year old listened to it once and said it was too long, and put it away. The story line and the pictures are scary. Remember, the movie is about a war, a horribly mutated evil guy, death, fighting, danger, etc, and this was all incorporated into the book. It is not suitable for this age group. Captain America's real voice is used, but he mumbles a lot

in the movie, so I could hardly make out what he was saying on the CD. This reads like a plot summary book for older kids or even young teens, but HEY, that age group does NOT need a CD audio book. They can read. I do not recommend.

Kids love this book! They are fans of the Avengers, through kid books and cartoons. They're too young for any of the movies, which isn't needed for them to enjoy this

Daughter Loves these books I can't Buy them quick enough. we have a pretty good collection going on now.

Needs to be for a 6+ child story and writing is not appropriate for a child younger than this

I purchased this as a gift to my 6 year-old niece. She simply love it

These books on tape helped my children take an interest in reading.

Arrived on time. follows movie story line well.

Great for long car rides and on the iPod!
