## Customer Reviews

We read the Iron Man book before it was in this boxed set. It combines Iron Man 1 and 2. The sex references, drinking and violence have been toned down to about a PG-rating so it's probably appropriate for most kids who have been allowed to watch the movies. I read it to a four year old, but in our house we're OK with heroes killing bad guys. I expect the others are similar but I'm using them as prizes for reading milestones so we haven't gotten to them yet. That said, the set is beautiful, and though the books are the size of paperbacks they have sturdy casewrap covers. If he hadn't already seen them I'd be using them for Christmas presents.

I got this set for my boys for Christmas and it is really really nice. We were going to buy it at Barnes and Noble, but the price was a ton more than . Great books for early readers. The stories are excellent and challenging, but not too difficult. And the set is just really nice in general. We will holding on to these to pass down through all our kids.

Gave this set as a Christmas gift to my daughter. I couldn't have found a better gift. She loved it and I'm now number one dad!

My boys love these books. We took them with on vacation and it was hard to get their nose out of them!

My son loves them. They are a great read!
